

The Tribune.

THURSDAY, NOVEMBER 1, 1883.

The Liberal Conservative convention held at Niagara last Saturday, Mr. M. W. Pray, of Niagara, as their candidate to contest Lennox at the coming election.

THURSDAY, November 8th, has been proclaimed a day of General Thanksgiving to Almighty God for the bountiful harvest with which Canada has been blessed this year. We trust that the day will be generally and properly observed by all classes of the population.

There is much prevalent dissatisfaction throughout the country in reference to the management of express companies and the extortionate rates inflicted on the public by those monopolists. The attention of the legislature might be well directed to these matters and some limit be set to their demands. Could not the postal department give some relief, by allowing packages to be conveyed through the mails much larger than are at present permitted?

LORD SALISBURY, leader of the Conservative party in the House of Lords, has produced a political sensation in England by recommending, under conditions, state loans to promote the better housing of the London poor. There is evidently a great necessity for a movement of this kind, and as the Radicals have been agitating a similar measure the probabilities are that the system will be carried out. The bill for Ireland and several towns and county unions are taking advantage of it there.

THE St. John Board of Trade have recently passed resolutions favoring the construction of the ship transport railway from Cumberland Bay on the Bay of Fundy to Lunenburg, N. S. Mr. Ketchum, the promoter of the scheme, has enlisted English capitalists to interest themselves in the undertaking which now bids fair to be an accomplished fact. It is expected that vessels up to 800 tons burden will be able to make the distance of about 17 miles in two or three hours. If successful, it will add largely to the commercial importance of St. John. A ship canal would have been, more desirable, but the Dominion Government hesitates to make such a large expenditure as would be involved, and Halifax more over looks with a jealous eye on such a movement which will however at a future day be probably effected.

THE strike of the telegraphers last summer was not without some good effect. It drew public attention to the great monopoly which controls nearly all the telegraph system of the continent. Several new companies have been formed in the United States and new lines projected which will afford some desirable competition. Two new cables are also to be laid under the Atlantic ocean. Mr. Bennett of the New York Herald and Mr. J. Mackay of California having signed a contract with the Siemens Brothers of London, for their construction. It is the intention of the promoters of this enterprise to lower the rates very materially, a result which will be hailed with delight by all business men. The tendency of the discussion of the telegraph question by the press of the United States and Canada, points to the necessity of government taking control of the system making it an adjunct of the postal department at England.

THE press and business men of Oswego are at last waking to see that the business of that port is threatened by the state of affairs which has culminated in the recent troubles. The arbitrary policy of the lumbermen, which has been so long permitted, is at last bearing fruit and it looks as if Oswego would be second by many if they otherwise would prefer to make it their centre of trade. It is not the first time that the port has suffered in this manner. Some years ago it was the centre of a great ship-building trade, but the same trouble and the same apathetic indifference on the part of its authorities and business men produced the necessary result, and that branch of industry steadily declined to its present condition. Matters have reached a state that lumber operators dare not take a contract for delivery of stock through Oswego without first arranging with the lumbermen in reference to rates. Last year, for example, the Rathbun

Company made contracts with the West Shore Railway Company for forwarding through Oswego about 350,000 ties, equivalent to about fourteen million feet of lumber. They had based their calculation for delivery, on a rate for unloading these, equal to an advance of 25 per cent. over lumber rates. Instead of this, however, they were subjected to a charge of over twice the ordinary lumber rates. The result has been the loss to Oswego of that branch of the forwarding business. That will serve as an illustration of the arbitrary rules which have been hitherto dared to impose. The apathy of the Oswego lumber-dealers has not been due to a lack of knowledge of these facts, but as the bulk of them handle the lumber for Canadian parties on commission, they have preferred to shut their eyes to these evils rather than enter on a struggle with men, many of whom are actuated by motives of the basest nature. This brings us to notice briefly the fact that such a policy on Canadian commerce. The lumbermen demand from 25 to 30 cents per thousand on lumber according to the size of the vessel, or 60 cents an hour when men are required at this work, and these exorbitant charges have served in no small degree to check the prosperity of the vessel interests of Ontario. There are vessels on the lakes which owing to this condition of affairs, have not entered the port of Oswego during the last season. We are of the opinion that, if our Dominion Government would remove the tolls from the Canadian canals, lumber for the Albany and New York markets could possibly be sent by the St. Lawrence route in canal boats, direct and without transshipment, from the Bay of Quinte mills to Burlington, Albany and other points. The increased distance of carriage would be counterbalanced by lumbermen being saved one or two handlings of lumber at Oswego and the barndown charges of that port, and by Canadian bottoms securing a greater length of carriage as the existing law between the two countries permits.

ACCIDENT INSURANCE.

Making some inquiries recently concerning the success of the Deseronto Mutual Accident Insurance Company established at the commencement of the present season, the obliging secretary stated that, so far, there had been only five cases in which indemnity had been applied for and granted. He also disclosed the fact that the membership was not by any means so large as was originally expected, and that therefore it was fortunate that the number of serious accidents had hitherto been small. This was a disclosure of facts far from encouraging in this day of co-operative and friendly societies. It has been found in cases of accident, that whatever may be the cause the sufferer and his family are very frequently reduced to a state of destitution, and thus rendered dependent on the sympathy of their neighbors. If there is anything more than another for which the workmen of Deseronto may take credit, it is the number of generous responses they have always afforded on such occasions to the call for relief. Still it will be remembered that in a previous season subscription lists were alarmingly frequent in appearance, and that many while not refusing their contributions, felt the demand as a rather serious drain on their slender resources. This naturally suggested to several the propriety of forming a mutual accident association, membership in which would insure a weekly indemnity in case of accident or the payment of a considerable sum to family or friends in the event of death resulting from injuries. This was thought would more fully equalize the share of expense which had to be frequently borne by the community at such occasions and at the same time render unnecessary that feeling of dependence on outside charity which is so repugnant to better natures. Thanks to a kind Providence the number of accidents this season has been small or owing to the limited number of members the calls on the funds could not have been so promptly met as they have been. The officers state that to their surprise the membership consisted chiefly of those who could least afford to dispense with the benefit of such an association, while those to whom it would prove the greatest boon unfortunately stand aloof. It is to be regretted that those for whose good it was chiefly intended should thus give it the cold shoulder. Nevertheless in this case as in no other, it is better to proceed than to stand still. It is not to be denied that the benefits of such associations whose operations and numbers are continually increasing among all classes. Shall we say it rather proceeds from a spirit

of fatalism which so generally obtains, and which argues that exemption from injury in the past presupposes its absence in the future; or that if the worse should happen, it will be less to fall back on sympathy of friends or the public at large. It should not require much serious thought to expose the bad logic of such arguments, and we should like to be practically related by the more directly interested. We should like very much to find the board of directors of the Accident Insurance company more encouragement in their benevolent undertaking by a large increase of membership and a revived interest in the association. No society in the community is more deserving of general patronage and none better calculated to be of growing advantage to our busy population.

Why Wait.

If suffering from pain, lost or once to W. G. Eggar's drug store and buy a sample case. Never fails to give immediate relief. Nervine is composed of the most potent and valuable substances known. Nervine is endorsed by medical men without exception. The best medicine in the world to keep in the house in an emergency and 25 cents a bottle at W. G. Eggar's.

I can't eat. Have pain in my stomach after my meals. My dear sir, use Crowfoot Elixer.

LARDINE MACHINE OILS

Have no equal. MANUFACTURED SOLELY BY McCOLL BROS. & CO., TORONTO. - ONT. Ask your merchant for Lardine.

BAY VIEW FARM! SEED POTATOES FOR 1884.

The following will be the principal varieties: Early Rose, and before November 1st. Samples will be on exhibition at 111, King Street, East, and Kingston.

ST. PATRICK. BEAUTY OF HEBRON

Is a strong and healthy grower, with whitened net or prelates but none better than the other. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

WHITE STAR

Is unquestionably one of the very best in cultivation. It is extremely green, the past year it was the largest grower in the country, and all agree that it is the most beautiful, and best looking variety. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

BONNEL'S BEST

Is a strong and healthy grower, and of the present season. Equally valuable as an early variety. It is extremely green, the past year it was the largest grower in the country, and all agree that it is the most beautiful, and best looking variety. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

JUMBO.

Is a strong and healthy grower, and of the present season. Equally valuable as an early variety. It is extremely green, the past year it was the largest grower in the country, and all agree that it is the most beautiful, and best looking variety. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

THE WHITE ELEPHANT.

This variety was produced from a seedling of the "White Elephant" and is a most valuable variety. It is extremely green, the past year it was the largest grower in the country, and all agree that it is the most beautiful, and best looking variety. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

BURBANK'S SEEDLING.

Is a strong and healthy grower, and of the present season. Equally valuable as an early variety. It is extremely green, the past year it was the largest grower in the country, and all agree that it is the most beautiful, and best looking variety. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

Also White Russian Oats for Seed.

Prepared for seed last spring. All who have seen them, and who have used them, will be of the opinion that they are the best. They are extremely green, the past year it was the largest grower in the country, and all agree that it is the most beautiful, and best looking variety. 50 cts. Peck; \$1.50 Bushel; \$1.75 Bag.

J. DALTON,

GEORGE STREET, DESERONTO.

DISTRICT.

Striling is improving its fire organization.

Striling is talking of starting a library.

Pickpockets are busy plying their trade in Kingston.

About 160 new dwelling houses have been built at Trenton during the past summer.

The Campbellford Herald is advancing a new railway line, to pass through that village.

Mr. G. Vanhook of Wapougon, nearly lost his life by the wrecking of his sailboat, near Point Traverser.

The Roman Catholics of Trenton, are making large additions and improvements to their church property.

By the explosion of a lamp, a barn belonging to Sidney Ratton of Athol, was destroyed with its contents. Loss \$800.

The editor of the Brighton *Ensign* rejoices in a large collection of agricultural products sent in by admiring patrons.

Mr. R. Harness, editor and proprietor of the *Picton Times*, died on the 21st ult. His remains were interred at Iroquois.

An application is to be made for a charter to construct a road from Gananoque to Perth, and thence to a point on James Bay.

There is an agitation in Trenton directed against the billiard rooms and gambling dens which are ruining the young men of that town.

Messrs. Templeton & Beaman, of Napanee, have disposed of the *Dominion Oddfellows* to the *Intelligencer* Printing Co. of Belleville.

Mr. D. W. Allison, has purchased the farm adjoining his residence in Adolphustown, from Dr. J. H. Robin, for \$11,000. It contains 245 acres.

Dr. Wilson, canon of St. George's Cathedral, Kingston, is mentioned as the probable successor of Dean Baldwin in the rectory of Christ Church, Montreal. For seventeen years Dr. Wilson has been ministered in Kingston.

Messrs. Gilmour & Co's, small mill and shingle mill shut down last Friday, for the season. It is also said that they are closing up several of their shanties and otherwise reducing their operations. This will throw a large number of men out of employment.

Joy in Every Drop.

This may be truly said of Palmer's Nervine, the greatest pain remedy of the age. It brings comfort to the weary sufferer when failure has attended the use of every known remedy. Nervine is an absolute cure for all kinds of pain, nervous debility, &c. Purchase a 10 cent sample bottle and try this great remedy. Nervine, a nerve pain cure. Don't forget the name, W. G. Eggar's.

A fresh lot of patent medicines, pills, and drugs received this week at Eggar's.

When you want a stylish overcoat or suit, go to the Big Store. Mr. Stoddart will give you a good fit.

MANURING FRUIT.

The value of stable or yard manure for fruit trees is becoming more and more appreciated. Autumn is the best time to make the application, and if the dressing is left on the ground all winter, the richer and solid parts will be carried down into the soil, and the fibrous portions, from which the richer parts have been washed, will remain as a winter mulch. A little heap of manure at the foot of the stem will be of no use; it should be spread as far as the roots extend, which, on each side, are at least equal to the height of the tree. Generally, therefore, the whole ground is to be covered broadcast. Do not make the common mistake of manuring heavily after years of neglect, but apply moderate quantities annually. This treatment will tend to the apple orchards here in years. Old trees, supposed to be dead, have been brought into new and profitable bearing by cutting out the dead branches and spreading broad dressings of manure each autumn.

COMMUNICATIONS.

EARLY CLOSING.

To the Editor of The Tribune.

Sir,—Now that the long nights are coming in, I think I could find a more opportune time to ask the merchants of Deseronto to close their stores at seven o'clock, say, four nights in the week. Surely the clerks here are no way inferior to those of the merchants of Belleville and in those places they close at seven every night except Saturday. Hoping some one will take the matter up. Yours truly, A. Clarke.

ALL ABOARD FOR BATH.

To the Editor of The Tribune.

Sir,—The ratapoys of the ancient village of Bath are still and use the necessity of a railway to bring the outer world into connection with that historical place. They are now anxious to sink \$10,000 in a trench and the Napanee people would like to complete it and have it. A few years ago when Bath first agitated a railway to Napanee and set the ball rolling, Napanee woke up to see a few points and then selfishly did her utmost to cut Bath off and accomplished

it. Since that time hangs a tale of Napanee railway enterprise. In the future Napanee is likely to be a way station. We would like to see both one of these cities and in the future become a city of the Bay.

A READER.

FAIR PLAY ON BOTH SIDES.

To the Editor of The Tribune.

DEAR SIR.—We notice in your last issue a communication headed "Fair Play to Businessmen." We do not quite fall in with the views of the writer and with his extreme opinion if you will permit us space. We would decidedly object to the council or any other body interfering with any who may come among us and offer us better value for our money than we have been getting. We do not think the resident merchants have any more right to protection than we mechanics and laboring men have. As well might we ask the council to put a license on every man who should come to this place to compete with us in labor—we think it would look fully as reasonable. From whom do these merchants make their money if not from the horny handed sons of toil, and we think it is a very poor rule that will not work both ways. We have enough monopoly in Deseronto now without the merchants forming a ring and fixing prices to suit themselves, let every tub stand on its own bottom and if our merchants have not ability and business tact enough to hold their own against any who may come in and sell goods over the counter, then the quicker they go to the wall the better for the residents of Deseronto. We venture to say that our merchants when they go to Montreal or Toronto to buy, will buy all the goods they can find at so-called slaughter prices, but we would not like to say that they give us an idea of what our merchants were in those markets and we want to encourage those who will do so.

Vox POPULI.

Deseronto, Nov. 1, 1883.

Farmers should see the grain laws at the Big Store before buying elsewhere.

A cheap and nice lot of writing paper in beautiful boxes at Eggar's.

Only one package cures Dyspepsia.

Only a dollar package of the crowfoot Bitters cured me of Dyspepsia after all other remedies failed.

6 LOCALS.—The Big Store.
1 LOCAL.—J. F. McAllister.
Circulation List.—The Tribune.

The Tribune.

THURSDAY, NOVEMBER 1, 1888.

TOWN AND COUNTRY.

ALL Saint's Day.

POLICE Court quiet.

TO-MORROW, All Soul's Day.

MONDAY was a wet and gloomy day.

Go to the Big Store for lamps, crockery, china, and glassware.

Another time for winter with its cold and dreary bill to appear.

A fine silver tea set, card receivers, castors, water pitchers, and napkin rings at Egar's.

LAY your linen dusters on the shelf and take down your overcoats, you will require them soon.

McAllister is determined to give Great Bargains, now is your time to purchase and save money.

STILL IMPROVING.—Mechanical experts are now busy remodeling the machinery of the Deseronto Flour Mill.

WELCOME.—The collector of rates is going his rounds. Have your money ready and thus render his duties less arduous.

SCURFIE PARTY.—A very pleasant surprise party took place at the residence of Mr. Wm. Stewart, Thomas street, last Thursday evening.

SUCCESSFUL.—Mr. James S. Brown and party returned last Friday from their hunting expedition having secured eight deer, a quantity of salmon, and a number of partridge.

HALLOWEEN has arrived and the small boy has his usual amount of solid fun, and while we are at work issuing THE TRIBUNE's mammoth edition from our perfecting press, we expect every moment to receive a salute at their hands.

CHURCH OPENING.—The new Roman Catholic Church will be opened on Nov. 11th. High Mass will be celebrated at 10 o'clock, a. m., and Rev. Father Gauthier of Montreal will preach both in French and in English. There will be a collection taken up for the Building fund. All are cordially invited to attend the services, of which further particulars will be announced next week.

NOT CREDITABLE.—It was stated at the Napanee meeting of the Bible Society that thirty dollars represented the free contributions of the Co. of Lennox and Addington, including Deseronto, to the funds of the Society. Deseronto contributed over twenty dollars of this sum, but it will be seen that the amount contributed is highly discreditable to the Protestantism of this part of Canada. Let us hear of liberal subscriptions for next year.

FEELING.—Several farmers from Prince Edward were delayed in town on Tuesday, the ferry boats being afraid to face the stormy water of the bay. Some of them called at THE TRIBUNE office to give us the benefit of their views on the matter, expressing the hope that the movement for increased ferryage accommodation would be pushed, as it would pay the people on both sides of the bay and Deseronto especially. We would like to see this matter immediately taken up by our town council.

OLD TIMES.—We have had placed on our desk during the past week several old numbers of the Deseronto News of various dates, from Jan. 17th, 1854, to Dec. 17th, 1846. They contain several interesting references to matters of public import at that time. One copy dated Dec. 14th, 1837, contains the proclamation of Lieutenant Governor Sir Francis Bond Head, offering £1,000 for the apprehension of William Lyon Mackenzie, and another of £500 for the capture of some of his associates in the rebellion of 1837.

BUTTERFLIES flying about last Sunday.

McAllister's Branch business was excellent last week.

Have you been to see Egar's silverware, if not just go.

Will we have a skating rink during the coming winter.

Call and see the Fine Parlor and Bedroom sets at Dalton's new Furniture room.

PILGRIM.—The Pilgrim was up on the Marine Railway last Thursday to get a few repairs.

SCRIBBLERS who may not receive THE TRIBUNE regularly will please send word to the office.

WATER WORKS.—Water-pipes as well as gas-pipes, are being laid down in the trenches on Centre St.

SALE OF JERSEYS.—Mr. Howatt of the Bay View farm, last week sold two Jersey cows and a calf at fancy prices.

ANOTHER.—A very bad hole is reported in the board-walk near Mrs. Morrison's in the east end of the village.

MACHINE SHOP.—Two flat cars arrived on Tuesday loaded with steel rails which will be manufactured into frogs at the machine shop.

LARGE RAFT.—Mr. Thomas Buck's large raft having several huts for men, passed on Monday, in tow of the tug Ontario, on its way to Quebec.

PLUCKY.—Two ardent sportsmen boldly faced the stormy billows of the bay in their canoes on Tuesday, getting to shore again fortunately without a ducking.

LOCK-BOXES.—Several suggest the advisability of introducing lock-boxes into the post-offices to lessen the crush of visitors which takes place at certain hours of the day.

CATASTROPHES.—The catapult business has been so energetically carried on by the ingenious youth of the village, during the last week that Chief Gun-ner has been forced to take steps for its suppression.

HURRY UP.—We would be more than pleased if the gas-men would hurry up their operations on Main street. As it is now, intending subscribers to THE TRIBUNE have to approach the office in single file.

LIBERAL OFFER.—The publishers of THE TRIBUNE agree to supply their paper and the Montreal Herald both for one year at the low price of \$1.50. Now is the time to avail yourself of this unequalled offer.

DEMOLISHED.—The repairs on the locomotive Deseronto being completed, the temporary machine shops have been demolished, to be replaced, we hope, at a future day by buildings of a more suitable and permanent character.

BEWARE.—An unknown man is in the habit of looking through windows and frightening girls and women in different parts of the village. It is supposed to be a foolish fellow, but such idiosyncrasy should not be encouraged.

THE M. E. Church Sabbath School are making arrangements for a Christmas Eve entertainment. They would be glad to have young folks who have never attended Sabbath School, to be present at their School on Sabbath mornings at 9:30.

CHANGE OF TIME.—There has been another change of time on the Grand Trunk. Bay of Quinte trains now leave Deseronto station at 5:20, a. m.; 8:30, a. m. and 4:30, p. m., to meet trains going west, and 11:30, a. m., 10:15, p. m. and 12:30, a. m., to connect with those going east.

ADRIK.—Miss Kerr has severed her connection with the Big Store to enter on a similar position at the establishment of E. N. Reed, Belleville. By her pleasant and agreeable manner she had rendered herself very popular, and she departs followed by the best wishes of the people of Deseronto.

THE OFFICERS of the Grand Council of Indians of the Province of Ontario will present an address of welcome to the Marquis of Lansdowne, on the 7th inst., at Rideau Hall, Ottawa. Chief Amoskotch, President; Chief James Styers, 1st Vice-President; Chief Solomon James, 2nd Vice-President; Chief P. E. Jones, M. D., Secretary.

WAR DECLARED.—Several parties request THE TRIBUNE to lead a war of extermination against the Telegraph poles and trees which so inconveniently run against people these fearfully dark nights, as they pass along the board-walks. We are suffering in this respect like our rival sister of the West, Chicago, but an absence of street lamps renders matters a little worse with us.

Blankets, blankets, cheap at the Big Store.

Go to Egar's and get a large quilt lamp, complete for 50 cents. Have you seen the beautiful Mantle Cloths and Knitted Coats at Mrs. Dalton's.

SLIGHT ACCIDENT.—John Healy, recently got his lip cut by a stroke from the lever of the steamloam tying machine in the big mill.

DOWNS.—Mr. Morry Thompson, while going home on Monday night, fell into the trench on Main street, getting some serious scratches and a general shaking up.

NOT SURPRISING.—One of our citizens while running for the doctor the other night fell into one of the trenches, and as a consequence got a suit of clothes considerably disorganized.

REMOVAL.—The new store erected by Mr. John McCallough, on George street, is already completed and Mr. Dalton has removed his furniture and undertaking business to the new establishment.

LIVELY.—The streets of the village last Saturday, presented a much livelier appearance even than usual. In addition to the village population, which was out in force, there was a large attendance of country visitors.

OPENING SERVICES.—The opening services of the new Roman Catholic church will take place on the 11th inst. Mr. Irvine of the sash shop, has finished the altar which is pronounced a most handsome piece of workmanship.

SAL.—It is a great pity to see so many boys of them only ten or twelve years of age, indulging in pipes and cigars without any effort at concealment. Parents and authorities should use every exertion to check this habit so productive of evil.

GREAT SALE.—The sale of a portion of the Indian Reserve immediately west of the village, took place advertised on Wednesday, 24th ult. It brought together a large number of intending purchasers, all anxious to avail themselves of such an opportunity to get a desirable building lot.

Mr. Wilkins was auctioneer and the bidding was brisk, 58 lots out of 73 being disposed of at prices ranging from \$250 to \$1,100, the average being about \$370. The total value of lots sold was over \$20,000. Next year we will doubt witness a great building boom in the west end.

MOBE CONTRACTS.—The Rathbun Co. have secured a contract for furnishing about ten cars of manufactured wood material, being part of that required in the construction of a large hotel at Algoma Mills, on the Canada Pacific Railway. They have also in addition made a contract for furnishing the material and erection of seven passenger stations, with freight houses and platforms, along the line of the Ontario & Quebec railway. This probably ensures continued employment for some time to come for the mechanics connected with the sash factory and Mr. Burgess's department, all of which view of affairs is very encouraging.

SUB BERNARDIN.—Just before going to press intelligence arrived of the sudden death, by apoplexy, at Gananoque, of Mrs. James Burgess of this place. She was paying a short visit to her husband who is erecting the Gananoque Railway station, when the sad event occurred. The remains will be brought by the Armenia. This sudden removal has cast a gloom over the whole community, and we desire with all the rest of the people of Deseronto, to tender our deepest sympathy to the afflicted husband and family. We have also to record the death of Frank, son of Mr. F. G. Jenkins, manager of the Sash Factory, which occurred yesterday afternoon. He suffered all summer from an attack of Bright's disease, and the bereaved parents, it is unnecessary to say, have the warmest sympathy of all in their sad loss of a loved child.

CONFIRMATION SERVICE.—Christ Church, Indian Reserve, seemed to be the very centre of attraction last Sunday morning, the occasion being a visitation by the Lord Bishop of Ontario and the confirmation of a large class of candidates. The day was one of the finest and most brilliant of the season and consequently favorable for a general turnout. We have seldom seen a church more densely packed and yet the number who could not gain admission if it came continued to throng the door, and among those debarred admission by the greatness of the throng, we regret to learn, were many Mohawk communicants and several converts for confirmation, also Mohawks. There being in the thronged attendance hundreds of communicants and so large a

number to be confirmed, the Bishop wisely shortened the service by dispensing with morning prayer. Precisely at 11 o'clock proceedings opened by the singing of hymn 215, "The Church's one foundation," as a processional, during which his Lordship with the attending clergy Archbishop, Jones and Rural Dean Baker entered from the vestry and took their place, the two former within and the latter without the steeple. The hymn concluded, the Rural Dean presented the candidates to the Bishop, who proceeded with the service, and at the proper time, kneeling in his chair before the altar, confirmed first the women then the men as they knelt two by two before him. The females numbered 10 and the males 44; seventy were Mohawks and twenty three whites. Eighty-three were from the Reserve and ten from Deseronto—in all 93. It was a solemn and interesting spectacle and one which few who witnessed it readily forgot. The act of confirmation over, hymn 381, A. & M.—"Oward Christian Soldiers," was sung by the choir and congregation very heartily, Miss Lydia Hill presiding at the organ. The Bishop then delivered an able and telling address to the newly confirmed on their duties, privileges and dangers. His Lordship was evidently much pleased with the large number of candidates presented, and the excellent order, observance, and expressed the hope that the candidates would be kept exerting a powerful influence for good throughout the Reserve. At the conclusion of the address hymn 232 was sung and the Holy Communion proceeded with, and thus ended the service which must be ever memorable in the annals of the Mohawk Mission. It is but fair that we should state, as requested by the Rural Dean, that he received much assistance in the preparation of the Deseronto Candidates from Mr. Hooper, Student in charge of St. Mark's Church.

Gents furnishings in great variety at the Big Store.
To prevent your lamps exploding buy your coal oil at the Big Store.

TO RENT.
The shop formerly occupied by Mrs. Nagle as a
Millinery Establishment
Is offered for rent, together with the stock,
FIXTURES, ETC.

It will be advantageous to our customers to select and leave their orders for these goods early and avoid the rush later on.

DOWNEY & CO.,
Hampden.

The Tribune.

THURSDAY, NOVEMBER 8, 1884.

The Reform convention held at Napawa last Saturday, nominated Mr. D. W. Allison, of Adolphustown, as their candidate for the vacancy in Lennox.

The Marquis of Lorne and Princess Louise arrived at Liverpool on Monday morning. They were cheered by the crowds as they passed along the streets and were presented with addresses at the Town Hall.

We regret that Hon. James Young, Provincial Treasurer of Ontario, has been compelled to resign his position on account of ill health. Col. Alex. M. Ross, M. P. for West Huron has been appointed to the office and was sworn in last Thursday.

An election recently took place in the small county of Rutland, England, being the first political contest that has taken place in the constituency for forty-two years. The county sends two members to parliament, and it is thought that one of the benefits of the contest on this occasion will be the direction of public opinion to the great necessity which exists in England for a change in electoral districts. This small county with a comparatively small number of electors has two representatives in the Commons while many cities with over one hundred thousand of a population have only one.

A CRIME to political corruption or misdirected zeal on the part of election agents might be provided by a clause in the act, requiring the issue of a writ for the new election within a week or two after a seat is declared vacant. A much shorter interval of time might also elapse between the issue of the writ and polling day. In England if we mistake not the election was placed in boroughs only three or four days after the writ is issued, and in counties in at least, fourteen days. Our population being more sparse in Canada, a longer period is necessarily required, but in these days of telegraphs and post-offices there is nothing to prevent the holding of an election in any average constituency within four weeks from the declaration of a vacancy. The benefits resulting from such a change would be various. There would be a more spontaneous response by the electors; much less expense would be entailed on candidates; the constituency would not be overrun for months by a horde of unscrupulous agents, and there would be thus a desirable diminution of the turmoil and ill-feeling consequent on a political struggle.

The Protestant portion of Christendom celebrates the fourth century of the birth of Martin Luther the great hero of Reformation. In Germany as might be expected, festivals and celebrations of more than usual splendor have already taken place at Worms and other cities in the Empire. Preparations on a scale of extraordinary magnificence have been made for a historical procession next Saturday at Eisenach, in which famous personages will be represented in mediæval costumes. In other lands the event will be celebrated in a less elaborate though not in a less hearty manner. It is becoming that the various Reformed churches rising above the petty differences which at other times seem to separate them, should thus unite to do honor to Luther, the great central figure of that ecclesiastical movement which has effected such great changes in the history of our world. Advantage will be taken of the occasion by optimistic presagers, not to arouse a spirit of bigotry, but to bring into prominence the self-denial and tender piety, and above all the far-seeing courage which the great Reformer was distinguished. It is to be hoped that the lessons thus communicated will tend to arouse the churches to increased vigour and life, and that from this anniversary may date another era of even greater spiritual prosperity than has marked their history in the past.

It were well for the different societies and companies to curtail or altogether suspend for the present their shipments of labor to the States. There is already a plethora of labor in the market and any increase must tend to a decided fall in wages, and as a consequence to much suffering to the working classes of the country. At this time of the year building and other branches of trade generally come to a standstill thus throwing many

out of employment. The lumbering industry employs the greatest amount of labor in the winter season, but new hands from Europe are not adapted to such work. Moreover, the low prices of grain this year will probably induce large numbers of young men to leave their homes to seek their fortune in the shanties, and we observe that the Canada Pacific Railway Company, have dismissed some thousands of their workmen for the winter, and that they are coming east. The labor market is therefore now than supplied and it is only cruelly to send over so many poor laborers to face the want and hardship of a severe winter. Agents have been forwarding many of late to Deseronto, being unable to secure employment elsewhere. Some of them have been retained but others had to return even though perfectly willing to work for their board. It is only misdirected charity, therefore, which in order to relieve the masses in European centers of population sends them to the Dominion at this season of the year in the face of a depression in business.

DEFENSIVE.

Our esteemed contemporary the Belleville *Intelligencer* does not favor us with its accustomed exchange last week. We would not regard that omission as a slight evidence of its regret for its unwarranted construction of an article in a former issue of the *Tribune*, in which we advocated the supposed return of the premier for Lennox. Bearing in mind the common depression existing, and likely to continue, and the consequent reduction in the demand for labor, we referred to the magnificent surplus now in the treasury. The opinion was accordingly expressed that the government was in a most favorable position to lighten the burden of taxation that unfortunately, in proportion to income, bears more heavily upon the working classes than upon the capitalist. The editor of the *Intelligencer*, imagining that he sees in this a covert attack on the National Policy, and confounding neutrality with independence, proceeds to read us an interesting lecture on inconsistency. With this interpretation placed on our article which he quotes in full the *Intelligencer* thus proceeds—"The *Tribune* in admitting that the working classes have enjoyed steady work and good pay as a result of the N. P. (an admission by the way not found in the article) gives away its whole case." He afterwards proceeds also to say that "It is therefore neither necessary nor desirable to interfere with a tariff which has worked so well." Even though we were to concede all the benefits which he enumerates as the result of the N. P. we venture to say the *Intelligencer* is the only journal in the Dominion which takes up such a position. No one believes that the tariff is unassailable nor that it may not be modified as the exigencies of the times may require. We suggest that the *Intelligencer* itself does not so believe, for he reminds the *Tribune* that the government has not been neglectful in the past in reducing the taxation of the people, as for instance, in the abolition of the impost on tea and coffee. The presumption which the reader would naturally form from such a statement is that the government is quite ready to make further reductions, or that the tariff can be modified, which is only what the *Tribune* originally suggested. We rejoice that the government, having such a fine surplus in its position to give every consideration to the condition of the working classes, and of trade in general, particularly during the coming winter. We are not among those who believe that governments can create good times nor that they are responsible for eras of depression in trade. We believe however, that the relationship which Canada has contributed so much to give Canada its proud commercial position among the nations of the world, can, by husbanding the resources of the country in prosperous years, do very much towards alleviating the burdens of depression which generally fall most heavily on those least able to bear them. The people will readily recognize and appreciate every effort of the government having this end in view and will not be satisfied with any fly in the wheel policy.

Glad Tidings.

To the victim of pain and aches no tidings can give greater pleasure than the news of relief. Folson's Nervine cures all the ills. Nervine cures rheumatism, headache, Nervine is a sure in lumbago, Nervine, the great cure for internal or external pain. Trial bottles costing only 10 cents may be had at Eggar's drug store. Buy one and test it. Large bottles of Nervine only 25 cents, at all druggists. Nervine, serve pain cures.

DISTRICT.

The Brockville daily *Times* is to be enlarged.
McCarthy's lighthouse on Hayek's Island was burned lately.
The farmers of Ameliasburg are annoyed by wolves and game thieves.
Kingston expects to have its cloth factory in operation in about a month.
Rev. E. W. Sibbald has been appointed rector of Christ church, Belleville.
The Lord Bishop of Ontario held confirmation services at Stirling and Rawdon last week.
The troubles in the Salvation Army at Kingston have been overcome by the tact of Capt. Abbie.
The Alma Mater Society of Queen's College has selected Matthew Arnold to lecture in Kingston.
Trenton's population is stated to be 4,224, an increase of 1185 since the last Dominion census.

The Amies opened in Napawa on Monday before Judge Barton. There are ten cases on the docket.

Mr. James Rankin, of North Marysburg had his dwelling totally destroyed by fire on the 27th inst. loss \$1,000.
Alphens Brickman, while returning to his home in Ameliasburg last Friday fell from a wagon, breaking three of his ribs.

A new bell has been purchased for the C. M. church at Newburgh which will be erected in a stone tower about eighty feet high.

The Campbellford *Herald* states that the farmers in adjoining parts of the country are investing largely in thoroughbred stock.

The *Review* states that Madeo merchants have agreed to close their places of business at 7 o'clock Saturday excepted, during the winter months.

The *Picton Gazette* describes a curious fish recently caught by J. Y. Palmer. It appears to be a cross between a haddock and a salmon.

A Wolf Island man who recently lost his wife has erected a tent over her grave where he keeps vigil, in order that the grave may not be robbed by students of the female medical college.

The Rev. John Leishman, of Newburg, was recently presented with a handsome silver picture by the Kirk session of Camden and Tanworth as a slight acknowledgment of his services while moderator.

Another railway collision occurred last Saturday on the Millard railway at Campbellford, an express train running into a ballast train. Two engines and two cars were injured but fortunately no one was hurt.

The closing of the mills of Messrs. Gilmore & Co., and the suspension of their operations have caused something like consternation in Trenton and the back-country on account of so many hands being thrown out of employment. The cause is said to be a slight difficulty between members of the firm.

Silver ware of all kinds, at Eggar's. At McAllister's Branch, Remnants are given away to regular customers and to new ones who purchase a \$5. parcel of goods.

Jessie Skinner, aged ten, living near Matawa, was outraged by an Indian a short time ago.

Try Nervine

For all kinds of pain. Folson's Nervine is the most efficient and prompt remedy in existence for neuralgia, headache, and toothache. For internal use it has no equal. Relief in five minutes may be obtained from Nervine in any of the following complaints, viz: Cramps in the stomach, chills, indigestion, pain. Buy a 10 cent sample bottle of Nervine at Eggar's drug store and test the great remedy. Large bottles 25 cents.

BITTERS

A MEDICINE Prepared Wholly from the herbs of the field for the Permanent Cure of Female Weakness and General Debility. It is also a Sanguiferous Purifier and Strengthening Tonic. It is a Positive Cure for all diseases of the Liver, Stomach, Kidneys and Blood. Give it a trial if you need anything for which it is recommended. All druggists carry it. Prepared only by the Crawford Indian Medicine Co., Meaford, Geo. Co., Ont.

\$1000 REWARD

will be given by the Crawford Indian Medicine Co., for any case of Liver Complaint, Dropsy, Bile, Headache, General Debility, Ralt Rheum, or Pimples. Skin which cannot be cured by using Crawford Indian Bitters, according to directions. Sold by W. Geo. Eggar.

THURSDAY, NOVEMBER 8, 1883.

TOWN AND COUNTY.

THANKSGIVING DAY.

Five moonlight nights.
Go and see Egan's X-mas. Goods.

A few china cups for presents, at Egan's. Very cheap.

The china signals have been constantly hoisted during the past week.

Lozely trimmed and untrimmed Ladies' Hats from fifty cents, at McAlister's Branch.

Unions thanksgiving services to-night in the M. E. church; let there be a large attendance.

RETAILS.—The ferry boat *Prince Edward* arrived from Belleville last week and was upon the marine railway for a few days undergoing necessary repairs.

LOOK OUT.—Burglars appear to be operating with vigor in all the towns and villages of this section of Ontario. It will be just as well to take precautions against a visitation.

LARGE APPLE.—A representative of THE TRIBUNE was shown an apple measuring 14 1/2 inches in circumference. It was grown in the garden of Peter Hicks, of North Fredericksburg.

PROSPERITY.—The Brighton *Ensign* and *Naples Express* have both moved into new and better quarters, thus proving that the wave of business depression has not reached the offices of those enterprising journals.

MALARIA.—Many are suffering at present from a mild form of malaria. When do the officers of the Board of Health make their first inspection? How many will be found unprepared for their visitation? Will the names of offenders be published in the TRIBUNE?

BETTER QUARTERS.—Mr. John Coleman has moved his gallery into Smith's block, next to McAlister's store, where his many customers will find him in a better position to do good work.

Parties advertising in THE TRIBUNE soon find their places of business too contracted to suit the rush of customers.

The patent "Nappa" Tanned Buck Rogers is the best made fastener either as a walking or driving shoe. They are made from California deerskins and dressed by the patent "Nappa" process. A full line of above goods may be found at "The Big Store." Every pair guaranteed to be first-class and price will be cheerfully refunded if material fails to meet expectations.

OFFICE SUNDAY.—The Roman Catholic church will be opened next Sunday at 11 a. m., as previously announced. The service promise to be of a very interesting character and will no doubt attract a large congregation. High mass will be celebrated by Rev. J. McDonough, the pastor; and Rev. Father Gauthier, of Williams-street will preach both in French and English. The steamer *Hero* has been chartered to bring a large party from Toronto. The collection, which it is trusted will be liberal, will be in aid of the building fund.

DROWNING ACCIDENT.—The body of Daniel Henry, who had been unfortunately drowned on Saturday night, was found on Monday morning. The deceased who had been engaged to work as loading one of the steam barges on Saturday evening, is supposed to have taken a wrong direction and in the darkness walked off the dock. Parties were busy all day Sunday grappling for the body without success, but their efforts being renewed on Monday morning they were at last discovered. By direction of the authorities the remains were interred without an inquest. Deceased who had been only a short time in Deseronto, was a native of the North of Ireland and was a steady and industrious young man.

Soaps, Perfumes and nice goods, ask for any kind, at Egan's.

Have you seen the Wineys from Sec. 3rd, upwards, at McAlister's Branch store. Very cheap.

NEW LAMP.—D. R. McRae, not to be outdone has placed a large lamp in front of his premises, thus helping to illuminate George street.

PRESIDENT.—Mr. R. H. Trimble has accepted a handsome suit to the R. C. church, such kindly acts are properly followed by our churches.

FARWELL.—Mr. George Seale, of Tyndings is reported to have started off last week for parts unknown, leaving several creditors to mourn his sudden departure.

CONFESSION.—The Deseronto Lodge, No. 102, I. O. O. F., will hold their annual convocation in their lodge room and Town Hall, on Thursday, the 15th inst., at eight o'clock.

CORRECT.—We are glad to find so many ordering the TRIBUNE for absent friends and relatives, thus avoiding headaches as a result of fruitless efforts to get sufficient news to make a decent letter.

MORE LIGHT.—Mr. James Cameron has placed a handsome lamp-post opposite the Central Depot. A kindly light will thus be afforded to his customers as well as to pedestrians generally who wend their way along George street.

GREAT IMPROVEMENT.—The unsightly verandah which overhang the TRIBUNE office was summarily removed last Monday morning, thus adding very much to the appearance of the fine brick block in which we are so comfortably located.

FLOUR MILLS.—This establishment has been shut down this week in order that some of the machinery may be remodelled. With all the latest improvements, the products of the Deseronto Flouring Mills will be even of a higher standard, if possible, than before.

PREFERENCE.—Deseronto friends of Rev. Mr. Sibbald, will be pleased to learn that his Lordship the Bishop of Ontario has appointed him to the Rectory of Christ Church, Belleville, where he has been doing excellent work. We wish him hearty success in his good work.

COMPLAINT.—Several shopkeepers complain of being annoyed by numbers of children roaming around and entering shops without any mission from parents or others. Some of these thus learning bad habits and will get into trouble. Parents will do well to assist in checking this evil.

GOY FAWKES.—The Fifth of November was duly commemorated in Deseronto. The Rev. J. C. Ash, P. O. W. C., preached an eloquent sermon to the Orangemen and True Blues in the M. E. Church, and the Brethren afterwards assembled at the Deseronto house, where they sat down to a fine supper and enjoyed themselves right royally.

LUMINOUS.—Everything being at last in readiness, a test was made the other day at the Chemical Works of the apparatus for producing gas from sawdust. It is gratifying to learn that the trial was satisfactory, the gas being pronounced of an excellent quality. The gasworks will soon be put into active operation, and shops, residences and factories thus enjoy new and better light.

ACCIDENT.—Capt. J. W. Bradbeer who has charge of the machinery in the ship yard unfortunately met with a serious accident on Tuesday. He saw which cuts the ship frames happening to get jammed, he jumped on the roller to get it loose; slipping on this he fell on the pitman of the saw giving his foot a very serious cut. Dr. Newton, who attended to his injuries, expects, however that he will be able to be about again very soon.

LUTHER COMMEMORATION.—The four hundredth anniversary of Luther's birth will be appropriately observed next Sunday by union services in the church and in the M. E. church at 10:30 a. m., and Rev. I. O. Chalmers will preach and preside at the evening service in the church at 7 o'clock. The collection on both occasions will be in aid of the funds of the Bible Society. On Monday evening a festival consisting of addresses, sacred music, both vocal and instrumental, etc., will be held in the church of the Redeemer at 8 p. m. As the choir of the different churches have united for the occasion, there will be a strong display of musical talent and everything promises an evening of rich and profitable enjoyment. Admission free.

MYSTIC.—The members of Craig Lodge, A. F. & A. M., met together at supper, on Tuesday evening. A pleasant evening was passed all too quickly by the brethren who eventually know how to enjoy themselves.

WALL DOME.—The highest marks in the recent examination of students of Ontario College of Pharmacy, were attained by Messrs. Ed. Scarlett of Colar, and W. H. Short, of Deseronto. Mr. Scott studied with Mr. W. G. Egan, and we congratulate both on this successful result.

BUILDING OPERATIONS.—Great activity in building operations is already manifested on the lots recently purchased from the Indian Reserve. Messrs. Allan Dryden, Robert Berry, John Berry and Murray Deans are all erecting residences, some of which are well advanced, on the lots facing the south side of Dundas street. Mr. J. T. Groatix is also preparing to build on the lot nearly opposite Mr. C. Jacques', shoe store, and Mr. E. Goulin is building a large barn on a portion of his property. Others will soon follow their example.

OUTCAST.—Mrs. James Burgess, whose sudden death was reported last week is a descendant of one of the oldest, and most extensive families that settled in the Bay of Quinte district. She was the daughter of John and Phoebe Bogart, and was born in Adolphstown in November, 1832. She was one of a family of eight children, four sons and four daughters, and the first of the eight that has fallen by the hand of death. Her first husband, Mr. Richard Dowling, of Newburgh, who died about eight years ago leaving her with three children, two of whom survive the mother. Nearly four years ago she became the wife of Mr. James Burgess, then of Napanee. She was now placed at the head of a household where three families had to be blended and live in peace and harmony; and right nobly did she accomplish the task providentially assigned her. As a step-mother she manifested consummate forbearance and wisdom, and was loved by all. She was affectionately regarded. She ruled her household diligently and well, and her children call her blessed. Her sudden death gave rise to no anxiety concerning her final safety. She had been a member of the Methodist church from her childhood, and she left behind her the testimony of a well-ordered and godly life. Many fall as sudden but as safe.—Com.

PERSONAL.

Mr. J. Nosworthy, of Belleville, was in town on Tuesday.

Capt. Jellett, of Belleville has been in town during the past week.

Miss Walker, organist of the M. E. church is suffering from an attack of fever.

Mr. W. A. Gilmour, of Ottawa, has entered on his duties in the Big Store office.

Mr. W. H. Barr, of Smith's Falls, was a visitor to Deseronto, in the beginning of the week.

Messrs. Rathbun and Gordon, students of Queens College, spent Saturday and Sunday in town.

Edward Comstock, Esq., mayor of the city of Rome, N. Y., paid Deseronto a visit last Friday.

We regret to learn that T. G. Pile, Esq., H. M. collector of customs is suffering from an attack of illness.

We were pleased to see our good friend Mr. W. R. McKee in town on Monday evening. He finds his duties on the railway staff very congenial.

Chief Annoschko departed on Tuesday evening to Ottawa to be present at the presentation of the address of the Grand Indian Council to Lord Lansdowne.

DESCRIBING SCHOOL REPORT.

Below are the marks of the Senior Division, Deseronto School, for the last two weeks. The number after each scholar's name is his or her standing.

ALMA (Chas.)—M. Edwards, 83; E. Solmes, 75; M. Conley, 52; E. Foote, 19.
South Class.—L. Brown, 140; N. Bowen, 137; J. H. Anderson, 134; E. Dunn, 133; E. Butler, 131; J. Brough, 129; W. Bowen, 143; L. Smith, 130; T. Field, 129; E. Scrimshaw, 99; E. Loft, 41; C. Patten, 19.
Senior Third.—E. Brown, 148; L. Macrae, 129; J. P. Pratt, 126; C. Loucks, 124; L. Brown, 113; L. Bogart, 112; D. Fringle, 103; M. Smith, 102; E. Martin, 102; E. Whitten, 91; A. Brown, 86; D. Edwards, 79; E. Malcom, 59; E. Kimmerly, 58; A. Brown, 56; A. Grier, 47; A. H. 20.
Junior Third.—M. Field, 157; N. Gowan, 143; J. P. Pratt, 147; E. Martin, 146; E. Smith, 109; W. Burgess, 136; T. Moschler, 99; T. Scrimshaw, 97; C. Galt, 93; J. Brown, 86; A. Baker, 85; E. Brewer, 81; J. Knapp, 70; S. Wrightmeyer, 68; A. Jackson, 58; P. Dryden, 46.

NEW

FALL GOODS

—AT—

DOWNEY & CO'S.

The Tribune.

TUESDAY, NOVEMBER 15, 1885.

Col. A. M. Ross, the new Provincial Treasurer was elected by acclamation last Saturday for the riding of West Huron.

The result of the election in the United States last week leaves the coming presidential contest more doubtful than ever. The Republicans have made great gains, their victory in New York more than counterbalancing that of the Democrats in Ohio. Ben. Butler sustained a crushing defeat in Massachusetts thus destroying his prospects as a presidential candidate. It would appear that the great battle of the next election will be in New York.

The *Madison Review* gives some interesting details of the proposed extension of the R. & N. H. Railway. The surveying parties have made good progress having already reached L'Amable. As this is a colonization road, and one well calculated to open up a rich mineral district and lumbering country, it is to be hoped that it will be aided by the Ontario government. They have already given a bonus to the R. & N. H., and should be prepared therefore to increase its usefulness and benefit the township by a liberal grant from the provincial treasury.

The Oswego papers state that the City Council have through their solicitor, notified E. W. Rathbun & Co. to remove beyond the fire limits the building at present used as a boarding house by their firm. This action is taken no doubt to defeat the firm in their efforts to transact their own business and employ such men as they please. We are much mistaken if the citizens of Oswego will countenance this movement which savors of spite and persecution. The building is quite as respectable in appearance, and quite as safe against fire as four-fifths of those in that section of the city. There should be common sense and fair play among members of the Levee Commission to enable them to say, that by this act they are striking a dishonourable blow, which must recoil on their own heads. Too much credit cannot be given to those workmen who have remained loyal to the firm, with which many of them have been so long connected, their devotion to their employers interests, and willingness to risk even their lives for the protection of their property, will no doubt strengthen the firm in their determination not to be swayed from their course by any such illiberal action as that manifested by the Oswego City Council.

The *Tribune* ventured some time ago to advise the farmers of this section of the country to let the barley market alone for a time, and give all their attention to fall-plowing. The fine weather has enabled them to follow out our advice to the letter, and seldom has the plough been more busy than it has been this autumn. The beneficial effects of such a course will be realized next year, as the most successful farmers unite in asserting that continued and attentive work in autumn is the best guarantee for a large crop at the following harvest. There is another question which we might also venture to ask the farmers of the Bay of Quinte district to carefully consider, viz: whether it would not be highly desirable for them to cultivate a greater variety of cereals, than they do at present. The barley of the Bay district has very justly earned a reputation for its quality, and it is now the staple crop of Central Ontario, farmers relying almost exclusively on its cultivation. This, it is to be feared, is a mistaken policy. Its ill effects are observable in the event of a partial failure of the crop, or in a season like the present, when prices rule low, the result in either case being a general depression. This condition of affairs might in part, at least, be remedied by increased attention to stock-raising, or by the cultivation of other cereals. In any case the question is one to which agriculturists might well give some thoughtful consideration.

WHATEVER doubts may be felt in reference to the action of government in excluding certain classes of literature, there surely can be none about the propriety of suppressing many of the impure prints which offend the moral sense with their disgusting and obscene illustrations. Despite all the efforts of officials it is unhappy the case that too many of these still find their way into circulation in all parts

of the Dominion. It is of course impossible in handling such a mass of matter as passes through the mails to totally exclude everything objectionable, especially as the printers to which we refer are often surreptitiously employed under cover of respectable journals. Still it would be well for postal officials not to relax their efforts to prevent their admission. Once admitted, it would be thought that a hostile public opinion as well as action on the part of police and other authorities would prevent their exposure to the public eye in places of resort. And yet this duty is often neglected and they are permitted to do their deadly work in degrading the minds of all, and more particularly of the young, whom a morbid curiosity impels to gaze on such pernicious prints. Deseronto is not without its share of this evil many of these *Police Gazette* coming in through the mails or brought in by hands on the various vessels calling at this port. Eminent authorities trace much of the crime and bloodshed so prevalent in the west to this source, and this being so, no appeal from the *Tribune* should be necessary to awaken the community to use every precaution to prevent the spread of this insidious evil.

It is stated that the Grand Trunk has secured control of the New York, West Shore and Buffalo Railway, the finest constructed railway on the continent. This will be pleasing news to the business men of Canada, as it will result in a saving of several dollars per car on freight from Ontario to New York. This connection will also afford desirable competition with the C. P. Ry, that line from its connection with the N. Y. Central, having superior advantages at present in traffic from Central Ontario to New York City and State. It also secures to the Great West a new outlet to the Atlantic seaboard by a line not under the control of the railroad rings of the United States. It will be remembered that, by the completion of the Grand Trunk, through to Chicago a few years ago, business men in Canada secured rates on western products considerably lower than when transported over various lines. In the same way Canadian merchants will now have cheaper transportation to New York and other centres of trade. The Grand Trunk has vastly increased the extent of its sidings during the past season, improved and enlarged old and constructed many new stations, and made most desirable improvements in its car service, giving more and faster trains. These facts together with the acquisition of the Great Western, North Shore, Central Vermont and now the N. Y. W. S. & B. railway, give evidence of the breadth of view and energy of the present management. Not the least advantage to Canada is that these privileges are obtained by English capital, thus preventing the leaking up of Canadian money, as has been the case to a considerable degree by the subscriptions the Syndicate Loan. It is to be hoped therefore that this line of this new acquisition is well founded.

PERSONAL

Mr. L. Brant returned last week from Oswego, having unfortunately contracted an attack of pleurisy.

Mr. P. O'Brien formerly of Belleville, and now of Toronto paid Deseronto a visit on Tuesday.

It is reported that Mr. Selmer Crook of Green Point, intends going to Italy, we wish him a good time.

Mr. R. M. Roy of the G. T. R. was in town on Tuesday on business connected with his department.

W. D. McMurich, Esq., has been presented with his portrait and a service of plate, as a recognition of his services while Mayor of Toronto.

Mr. F. W. Powell who has been cheering his many friends here for his special presence for a few days returned to Ottawa on Tuesday.

The many Deseronto friends of Mr. Geo. S. Wakeford will be glad to learn that he is prospering in his new position and that he is favorably located. He is operator at Fenwick, a station of the C. P. R. west of Port Arthur, the office is well fitted out, and said to be the finest on the road.

Home Testimony

Many hundred recommendations similar in character to the one given below have been received, and give proof of the great value of *Webster's* *Spelling Book*. Try it.

Atch. Feb. 29.—We have only to say that we have used *Webster's* in our families, and have found it a most reliable remedy for cramps in the stomach, also for indigestion, and extremely for rheumatic pain. It is the best remedy without this medicine remedy.—Lena Cook. *Webster's* *Spelling Book*. Buy a 10 cent sample bottle at *Esq's* drug store. Large bottles 25 cents, by all druggists.

NEW ADVERTISEMENTS.

3 LOCALS.—The Big Store.
3 LOCALS.—J. F. McAlister.
LARGE FOR SALE.—The Bathing Co.

The Tribune.

THURSDAY, NOVEMBER 15, 1883.
TOWN AND COUNTY.

SLIGHT BELLS.
Big blow on Monday.
Look out for the comet.
Get your skates oiled up.
Four inches of snow on Tuesday.
A lively squall on Sunday night.
O'Donnell's Conversation to-night.
Oysters sold seats direct from Baltimore at the Big Store.

Great bargains continue at the Cheap Store of J. F. McAlister.

SHOWERS of rain accompanied with loud claps of thunder and very sharp flashes of lightning on the 9th inst.

THE BEAUTIFUL.—The first fall of snow occurred on Sunday night, the ground being white on Monday morning.

Dress Goods are selling fast at the Big Store. Competent judges say they are the best value ever shown in the village.

LIGHTNING.—On Friday night a strawstack owned by Mr. Royal Roy of Green Point, was struck by lightning and a cow killed.

HELP OVER.—Some very interesting correspondence from Napanee held over until next week, having arrived too late for insertion in this issue.

POLICE COURT.—Samuel Pier was arrested by Chief Gwynne for being drunk and disorderly. The magistrate fined him \$3.00 and costs, making in all \$9.50.

PROGRESSING.—If fine weather continues, there is every probability of the gas-mains to and along Dundas st. being completed in time to allow residents of that avenue to enjoy gas-light during the coming winter.

DON'T DESPAIR.—Young ladies of Deseroto will remember that in less than two months leap-year will be present; then, for a combined assault on those citadels of bachelorism, the Deseroto and Ottawa houses.

VALUABLE STOCK.—Mr. D. E. Howatt departed for New York last week, to arrange the shipment of a Jersey Bull and Cow which have been secured at great expense. This new importation of stock is said to be far superior to any yet introduced on the Bay View Farm and will thus be a decided gain to the stock raising interests of this part of Canada.

FERRY.—Mr. E. Walsh informs us that the TRIBUNE was partly in error when it stated that the ferry-boat was afraid to cross during a recent storm. Such it seems was not the case, but as his engineer at that time had not a certificate, the inspector had refused to allow him to run on that particular day. He has now a regularly certified engineer and can cross at all times and in all weather.

NEW SOCIETY.—A new society in connection with St. Mark's Church has been formed lately, to be styled "St. Mark's Literary Society." It has for its laudable object the mutual improvement and promotion of friendly intercourse among the members of the society as well as the advancement of the church's interests generally. The officers are:—John Hooper, President; Mrs. Wm. Irvine, Treasurer; Robert Galt, Secretary. Committee of mission is:—Miss Annie Galt, Miss Tait, Miss Barnhart, Mrs. Coleman, and Messrs. Geo. Field, Samuel Slack and Thos. Naylor. The first meeting of the Society will be held at the residence of Mr. John McCullough, on Friday evening, 16th inst., at 7.30 o'clock. All are invited and admission is free. All persons interested are requested to connect themselves with the society.

The *Prince Edward* is still on the Marine Railway getting a thorough over-hauling.

GAS.—The Big Store was illuminated with gas on Monday being the first establishment to introduce the new light.

GOOD CHEER.—Mr. George Stewart, mine host of the Deseroto house, secured on Monday as a gift, a fine canister of salmon weighing 224 lbs.

RAILWAY TRAFFIC.—The number of loaded cars which arrived and departed from Deseroto was 22 for the week ending Nov. 3, and 27 for the week ending Nov. 10, 1883.

AT LAST.—We are glad to notice that Main st. has again emerged from its dismal state of upheaval to its former condition. There is nothing now to detain the rush of customers to those places of business advertised in the TRIBUNE.

BOARD-WALKS.—Mr. Wm. Stewart, by direction of the Town Council, has been extending the board-walk on the north side of Dundas st., between George and Mill streets. The council has done well by the village this year in the matter of board-walks.

PAUSE ALARM.—There was a false alarm of fire on Sunday night in the middle of the squall then prevailing. It served to show that the new chief appointed at the public meeting had his brigade well organized so that the tanks were easy of access. The village is safe against the devouring monster.

REMOVING.—Mr. Peter Reid intends removing in a few days with his family to Toronto, where he will be connected with the new Branch Line of Railway. No officer could be more attentive and obliging, and certainly none more popular than Peter Reid on the B. of Q. Railway. Both he and his family depart with the best wishes of the community.

NAPANESE ROUTE.—The steamer *Opria* has been withdrawn from the Napane route. The *Deseroto* will make trips as follows:—Leave Napane at 6 a. m. and 12.30 p. m.; leave Deseroto at 7 a. m. and 1.30 p. m.; arrive at Pictou at 8.30 a. m. and 3 p. m.; leave Pictou at 9.30 a. m. and 3.30 p. m.; leave Deseroto at 11.15 a. m. and 5.30 p. m.; arrive at Napane at 12.15 noon and 7 p. m.

ST. MARK'S CHURCH.—Rev. Mr. Harding dispensed Holy Communion at St. Mark's church last Lord's day, at 11 o'clock in the forenoon, preaching also with much acceptance to a large congregation. In the afternoon he also administered the Sacrament of Baptism. The people of Deseroto will all be glad to learn that Mr. Hooper who has been filling the vacancy so acceptably during the past summer is to remain during the coming winter. Mr. Bowen's brick cottage has been secured as a temporary parsonage. Mr. Hooper's mode of coming from Kingston to keep house for him. Mr. Hooper has been unwearied in his labors since his arrival here, and the Tribune only expresses the sentiment of the community when it hopes that St. Mark's will in good time secure his services permanently.

LETTERS.—The fourteenth anniversary of the birth of the great Reformer was duly observed in Deseroto as elsewhere. Union services were held by several congregations last Sunday, in the morning the M. E. church was crowded with a large audience the Rev. R. J. Craig delivering an instructive sermon in which he dwelt on many important facts connected with Father's life. An immense congregation crowded the church of the Redeemer in the evening, the preacher being Rev. I. O. Mallory who gave an earnest discourse on "Greatness in Character." On Monday evening a Festival was held in the church of the Redeemer, partaking chiefly of a musical character. W. R. Aylsworth, Esq., reverend of Deseroto, filled the chair with marked ability. During the evening addresses were delivered by Rev. Messrs. Mallory and Craig on the life and times of the "Book who shook the World." A strong union choir sang the different choruses in a manner most creditable. "Die Wacht am Rhein" was particularly well rendered by Miss Anderson, Miss Parks, Mrs. Gough, and Master Fred Sims. Mr. J. Gough gave a cornet solo, and Mr. G. Walker brilliantly executed on the piano a selection from Meyerbeer's opera of Dinorah. The E. M. church played several selections on the organ with good taste and correct expression. Mrs. Craig, to whose kind assistance much of the success is due, played the different accompaniments besides giving several selections on the organ with her usual skill.

McAlister's Cheap Store motto is "small profits and quick returns."

Rubbers and Overcoats for men, women and children just opened at the Big Store.

REMEMBER the Council's By-law and save your face by cleaning the snow from the sidewalk.

OUTRAGE.—Mr. James Cameron, offers a reward of ten dollars for the apprehension of the parties who took the handsome lamp recently erected before the Central Depot. It is to be hoped the rascals will be captured and deservedly punished.

GRACE OF TONE.—Commencing on Monday, November 19th, the train of the Bay of Quinte Railway leaving Deseroto at 8.15 a. m. will connect with G. T. R. local trains running both east and west.

INDIAN ANNUITIES.—Mr. Matthew Hill, agent of the Indian Department, has been paying the annuities to the Indians of the Mohawk Reserve this week. There are 284 Indians of all ages, and these receive on an average \$244 each. This amount will be increased in future by about one dollar by the interest on the amount realized from the sale of Deseroto village lots.

DANGEROUS NAVIGATION.—Capt. Flynn of the *Reliance*, had a rough time on Tuesday. The *Reliance* and *Georgina* were both in company on their way to Oswego when the squall struck them. They had to boat ship and found great difficulty in navigating through the blinding snow storms. The *Reliance* got back to McDonald's cove, but missed the *Kingfisher* which it is feared may have met with an accident.

ADDITIONAL TRAIN SERVICE.—On and after Monday Nov. 19th, the Grand Trunk Railway Company intend running a local train for the east every morning, (Sundays excepted). Passengers can connect with this train by taking the B. of Q. Ry. train leaving Deseroto at 8.15 a. m. This is a move in the right direction, and a long felt want is thus supplied, one which will no doubt be duly appreciated by the travelling public.

RUNAWAY.—While a party were returning from a funeral on Wednesday, 7th inst., the horses were started at the lower end of Main st. and a runaway followed. The horses turning quickly around the corner into the yard of the O'Connor house, upset the carriage dashing out the inmates. Mrs. E. St. Louis was hurt, but the most serious injuries were sustained by Mr. Baptiste Jindrew, who received some severe cuts in the head. The rest of the party escaped with a few bruises.

CHEMICAL WORKS.—After nearly four years of expensive experiments, success seems, at last, to have crowned the Rathbun Company's efforts to discover satisfactory methods of separating the refuse from their mills. Not only will gas of a superior quality be eliminated from this refuse, but various other useful products will also be evolved. We might instance among others fine charcoal, suitable for the manufacture of gunpowder, for use in refrigerators, and as a disinfectant for stables, cesspools, and various other purposes. Then by different chemical combinations there will also be formed, acetates of lime, sugar of lead, wood alcohol, pine tar, and a long list of commodities, useful in various arts. It is hoped that before winter sets in, that sufficient progress may be made to enable gas to be supplied in sufficient quantities to light the different establishments in the village. The Company is to be congratulated on the success of their enterprise, which opens up a new era in the history of the milling world.

OPENING OF THE NEW ROMAN CATHOLIC CHURCH.—Last Sunday witnessed the happy consummation of the hopes and labours of the Roman Catholic congregation of Deseroto by the opening of their handsome new church for public worship. The weather was magnificent and everything favourable for attracting a very large congregation, embracing representatives of the different denominations, many coming from Napane, Trenton, Belleville and the adjoining country. At 11 o'clock the proceedings of the day commenced by the solemn celebration of High Mass by Rev. J. McDonough, the pastor of the congregation. This ceremony completed, Father McDonough in a few remarks, congratulated the congregation on their entrance into the new church. He also referred to the harmony so happily existing among the different religious bodies of Deseroto, and thanked his separated brethren for their liberality and kindness, and more particularly the Messrs. Rathbun, who had so generously pro-

vided the congregation with the lot on which the church was built. He then introduced the preacher of the day, the Rev. Father Gauthier of Williamstown, referring to him as the silver-tongued orator of the diocese of Kingston, a title to which he showed himself justly entitled by the eloquent addresses which followed. Many of the members of the congregation being French Canadians from the lower Province, it was becoming that they should not be forgotten in the events of the day, and accordingly Father Gauthier first addressed them in the beautiful language of *La belle France*. He reminded them of their old homes in Quebec and the religious advantages which they there enjoyed, commended them for their attachment to their old faith, and strongly urged them to attend to the proper instruction of their children and to be regular in their attendance upon the duties of their religion. The address in English followed this appeal. In his opening remarks he alluded to the congregation on their new church, stating that he had no idea of finding such a beautiful edifice. It spoke well for their faith and self-sacrifices. He thanked members of other churches for their kindness and was glad to hear that harmony prevailed among them, and asked why should this not be the case? That spirit was characteristic of Christianity, and love to others was not to be of any ordinary kind, but we are to remember the words of him who commanded us to love others as he loved us. Why, it might be asked should we select one particular spot and set it aside for the worship of God? God is everywhere, he fills all space, we cannot hide ourselves from his presence. That was true, and yet he is willing to bestow his presence on particular places, as for instance, in the case of Jacob who on awaking after seeing the angels descending from heaven exclaimed "God is here," also of the burning bush, when God informed him that he stood on holy ground, then again Mount Sinai and many other places. God desired the house and David gathered the material and directed Solomon who built the temple, and God expressed his pleasure by sending fire from heaven to consume the sacrifice, as when Solomon afterwards that he had chosen the place himself. When it was destroyed, he sighed for another, and in displeasure on his people afflicted them for not providing it. If all is God's, surely if he asks one spot for his service none will refuse. It is a foolish philosophy which says my own hand and labour has got all I possess. They did not think so or else there would be no new church. God gives hands, houses, intellect, and it were ingratitude if we refused to use them for his glory. But again some would ask, why this extravagance in costly churches? Christ came in poverty, was born in a manger, had no home, no place to lay his head, why then this extravagance in buildings? But was not that the best argument for doing him honour now? He came to save, to die for us, but was that the treatment he deserved? Surely not, and the churches of Christendom had erected beautiful houses to do honour to his name. Why not give it to the poor? Christ answered the question the poor ye have always, but me not, and the disciple who asked the question was afterwards the traitor. There was every reason why we should give our best, and our hearts told us so. They were there to do this and honour the house. There Christ would be preached, then his particular presence would be manifested, souls converted and saved, and there the message of mercy would be proclaimed by his accredited servant. In words of pathetic eloquence, the preacher then proceeded to show in how many ways and on how many occasions that house would be found useful to the worshippers as a place where Christ's presence would be felt. Concluding his remarks he stated that he had been in many churches of the diocese but none pleased him more, and he urged them to go on in their good work. He also paid a becoming tribute to the vigour and devotion of Father McDonough, whom he had long known as a friend. Miss Mary Walsh who presided at the organ during the services and the excellent choir of the Napane congregation with Miss Susan Shannon as leader on the piano, were present to assist with the choral part of the service. The large congregation present were most attentive and much impressed by the character of the day's proceedings. The collection amounted to \$135, an amount which will very materially lessen the comparatively small debt due on the church. The TRIBUNE unites with others in extending its congratulations to the pastor and people on the success which has crowned their efforts.

NEW FALL GOODS —AT— DOWNEY & CO'S.

We are now opening our new Fall Dress Goods which this season will be found unusually large, very attractive and very cheap. We name some of the newest goods that we are now showing:—

- Poilde Bison Cloths,
- Crusader,
- Gobelin Ottomans,
- Paillason,
- Drapp Travers,
- Drapp Des Dames,
- Grecian,
- Wales,
- Jersey Cloths,
- Patience,
- Mascotte Brocade,
- Fantastic Cloth,
- Tartans,
- Jumbo Plaids,
- Cashmeres,

In the following colors:—

- Elephant Gray,
- Paschutt Gray,
- Judic Shades,
- Russian Green,
- Russian Green,
- Moss Green,
- Czar Brown,
- Mahogany Brown,
- Crushed Strawberry,
- Bronze,
- Cadet Blue.

Velvets and Velveteens,
Lorne and Arcadian Brands,

- In fashionable colors
- Judic Shades,
- Mahogany Brown,
- Blue,
- Russian, and
- Moss Green.

Also a fine stock of

- Chenille Velvets
- and Plush Brocades.

These goods are now open for inspection and are well worthy of examination.

It will be advantageous to our customers to select and leave their orders for these goods early and avoid the rush later on.

DOWNEY & CO.,
Napane.

10

The Tribune.

THURSDAY, NOVEMBER 22, 1888.

About five hundred navvies were recently induced to set out from the province of Quebec to seek employment on the Canada Pacific. When they reached Toronto they learned there was no need of their services, and they were compelled to remain in that city suffering much distress for a few days. They were ultimately sent back at the expense of the Canada Pacific.

The nomination for the vacancy in the House of Commons took place at Niagara on Monday. Mr. D. W. Allison, of Adolphustown, was nominated in the Reform interest, and Mr. M. W. Pryn, of Niagara, for the Conservatives. A public meeting was afterwards held in the town hall, when able and convincing addresses were delivered by the candidates and also by Messrs. A. D. Baine, H. M. P. P., and A. H. Roe, M. P. P., and Dr. Platt, M. P. Both parties manifested great confidence and a close and stubborn contest is expected.

A correspondent of the Montreal *Tribune* described the way in which passengers were treated on the Atlantic. The Company helped to give publicity to the exposure by prosecuting the *Witnes* for libel claiming \$50,000 damages. The case was tried by a Montreal jury who unanimously justified the *Witnes* in its course. It is trusted that one of the results of this trial will be an improvement in the accommodations provided for passengers, and a mitigation of the annoyances and discomforts to which they are exposed. As matters are now, passengers of all classes can receive scant attention unless they liberally pay stewards and waiters.

ONE of the most pleasing facts in the history of Deseronto during the past season is the increased attention which has been paid to the improvement of the appearance of residences and gardens. This is noticeable on all sides, in all directions are to be found cottages which have been neatly painted and decorated thus evidencing the possession of much good taste by their owners. All this combines to give the village a more cheerful and attractive appearance and we trust there will be no relaxation in the good work. One untidy looking house or neglected garden frequently spoils the appearance of a whole street. The town occupies a pretty situation on the Bay and with an indispensible population there is no reason why it should not be a model place in this as in other respects.

A NUMBER of gentlemen in Toronto, descendants of the U. E. Loyalists in Upper Canada, held a meeting last week to consider a proposition to celebrate the one hundredth anniversary of the settlement of their forefathers in Canada. Toronto is now celebrating her semi-centennial, and it is suggested that at the same time the Loyalists might also hold their celebration. It is supposed that the event would bring together a large number of descendants of Loyalists from all parts of the province. It is pleasing to observe that the occasion is not to pass unnoticed, and that the names which are connected with the movement guarantee its success. At the same time, when we remember that the Bay of Quinte district is more closely connected with the history of the Loyalist settlements in Ontario than any other portion of the province, it would be especially becoming that a demonstration should be held at some point along its shores. We are quite willing, for one, to waive the claims of Deseronto, and to suggest either Kingston or Bath—historic Bath, Kingston would, no doubt, afford the best accommodation for the large numbers, who would probably assemble on such an occasion, but many and powerful claims might be advanced in favor of Bath, in early days the rival of the Lakeside city. Its proximity to Adolphustown and other places so famous in the early history of the country would almost entitle it to the preference. One serious objection might be the want of railway connection, but there is no lack of steam-boat service on the Bay, and then, why might not one feature of the celebration be the entrance of the first rail way train into the village, thus linking as it were the present age of improvement with the venerable past. The choice of place however, is only a secondary consideration; only let there be some movement to have the hundredth anniversary properly celebrated, also at some point in Central Ontario.

SELF IMPROVEMENT.

THE *Tribune* was only too well pleased last week to chronicle the establishment of a new literary society in connection with one of the town congregations. Such societies, if properly conducted, are calculated to exert an influence for good not only on their members, but on the community at large. Even the most careless member, who takes part in the more active duties of the meetings, is desirous of doing his part well, in order to merit some measure of applause. This desire, in turn, leads to a certain amount of preparation, and thus in many ways a stimulus is given to the intellectual faculties. The selection, for example, which is to be read in public, is carefully studied in order to acquire the full meaning and spirit of the author, and thus, insensibly perhaps, but not less thoroughly, a lesson in style is received. The dictionary is consulted for the correct pronunciation of the doubtful words, and an attempt is made to correct faults of elocution. Now all this self-imposed labor has a refining influence which is not at all confined to the individual who undertakes it. It is quite obvious that, such societies in addition to affording an amusement to the public, are thus educational agencies in the great work of self-improvement. We fear that the community does not generally appreciate the efforts made by our home amateurs to enter to their amusement. It is fashionable here, as elsewhere, to affect something like contempt for all local talent however worthy of praise, and unjust comparisons are frequently instituted with performances previously witnessed in larger centres of population. But the fact is lost sight of that such places with their educational and educational institutions afford greater facilities for improvement, and there is beside a large class of professional and semi-professional performers ever at hand to prevent the possibility of failure. But this adverse criticism is not after all without its advantages, as it has a tendency to induce greater vigilance in the way of preparation in the manner to which we have already referred. Now that the long evenings have set in, it would be well also for all our young people, whether members of societies or not, to betake themselves diligently to self-improvement. Volumes have been written on what may, by the sacrifice of a little effort, be accomplished in this direction. Every reader of the *Tribune* has probably read that excellent work of Samuel Smiles "Self-Help," with its valuable hints and illustrations. After reading it, no excuse that can be presented should suffice to deter any one from entering immediately on this task. We are quite aware that after working hard all day, to set to work again involves an amount of self-denial from which wearied nature shrinks. But nothing can be gained without such sacrifice and it will be discovered that what at first was a task will soon become a source of rational pleasure. It was stated that one of our most successful competitors a few weeks ago for one of the valuable scholarships offered by the newly established Royal College of Medicine in London, had spent his whole time after working thirteen hours a day in a factory, had still found time in her spare hours to perfect herself in music. Should not such an example prove a powerful incentive to us all to turn to good advantage the larger amount of spare time ever at our disposal, and which is too frequently turned to purposes other than profitable.

PICTON.

(From Our Own Correspondent.)

The schooner *E. K. Hunt* took the balance of Boulter & Dunning's *Truckload* for canned fruit, but by Dr. Evans. H. S. Wilcocks entered the matrimonial arena on the 19th inst. by taking Miss Bertie Carter, second daughter of Mr. J. N. Carter, our prominent hardware merchant, for better or worse. The ceremony was in the church, but private, only a few witnesses being present. They go on a bridal tour to Richmond, Que., where his people reside. James Carey, an old resident of Hallowell, while on his way home east of Picton on Saturday evening, 19th inst., was struck by a lumber wagon and had his leg fractured below the knee. The parties were coming home and the wagon by which he was struck was out of the main track when the accident occurred. If the parties were running horses can be ascertained it may one time or another. Carey was brought to town and the limb set by Dr. Evans.

With Satisfaction.

POLINA NEWBERRY, the new and certain pain cure, is used with satisfaction in every instance. There is no reason why it is not performed all that is claimed for it. Nervine is a never-failing cure for cramps, pains in the side or back, headache, neuralgia, rheumatism, toothache. Nervine is in fact a sure remedy for all pains, both internal and external. Try a 10 cent sample bottle at Eggar's. Large bottles only 25 cents, by all druggists.

Bargains! Bargains!!
Bargains!!!

THE BIG STORE

Has just opened out a large and choice stock of
Goods for Fall
& **Winter Wear,**
received direct from the
European Markets,
and additions are daily being
made to the stock.

Pumps, Cast Iron Sinks, Lanterns, Fire
Buckets, House Furnishing Goods; Plated,
Enameled and Japaned Ware. Special attention to Roofing, Eavetroughing, Bell Hanging,
Plumbing, Steam & Gas Fitting, Etc., Etc.

D. R. McRAE.

DESERONTO

FURNITURE STORE!

We have a full line of Furniture and are selling 10 per cent. less than regular prices to clear out stock before moving into new premises.

Upholstered Goods Very Cheap.

A full line of

Undertakers Goods and a First-class Hearse.

The very best line of

TAPESTRY CARPETS AT THE LOWEST RATES

We also hold the agency for the

Domination Organ & Piano Company,

Which are acknowledged the best.

J. DALTON,

GEORGE STREET, DESERONTO.

THE NAPANEE, TAWNORTH AND QUEBEC RAILWAY.

To the Editor of The Tribune.

DEAR SIR.—Now that the above road is so nearly identified with the interests of the Province, it is not surprising that its progress should be of interest to many of your readers. The success of the Montreal and Quebec would be to extend the Bay of Quinte and the Lake Ontario, and the importance of the Bay of Quinte. The N. & Q. Railway, now nearly completed, would connect the navigation of Lake Ontario with the great system of railways in the north, thus creating a route of communication for its directness and expedition. The indications extending from the deposits in the vicinity of Tawnorth, being so useful for the necessary means of transportation for a full development of its resources. The vast area of forest, and immediately north, once rendered accessible by railway, would have all its varied products brought at once into demand, increasing their value, and thus promoting immigration and settlement. For the furtherance of such a scheme a company was formed composed of the leading men of Napanee and vicinity. Applications were made to parliament and a charter granted, and in June, 1881, the first cut was turned, and the grading completed to Tawnorth the present terminus. For several seasons nothing further was done until about August last, when the Rathbun Company assuming control, at once commenced operations and are now pushing the work with their usual energy and dispatch. Leaving the Grand Trunk at a point a little east of Napanee station the road takes a westerly direction for a short distance, then following a graceful curve sweeps to the right, proceeding in a north-easterly course over unbroken country for about three miles, when it strikes the north bank of the Napanee river. From this point on the west side of the river the country becomes more undulating and varied, showing exceptional agricultural qualities, the fine farms and homesteads manifesting the comfort and wealth of the rural population. Skirting Napanee Mills, a small hamlet, where is located one of the mills of the Napanee Paper Co., from which it derives most of its support. An almost straight run of two miles takes you into Newburgh, or Regina Hollow as it is familiarly termed around here—very fitly should denote such a reputation as the name suggests. It is a place of interest for the inhabitants seen to have little of the romantic about them. It is quite a pretentious village in which are situated several industries, comprising flour mills, paper mills, tannery, carriage factories, etc. A number of well stocked stores, representing every description of goods testify to the commercial importance of the place. Passing Thompsonville on the river, the site of another large paper mill about three miles from Newburgh we reach Clark's Mills or Clinton East, a small village containing woolen mills, flour mills, carriage factories, etc. Here, also, with a few others of less pretensions, is situated the celebrated establishment of Haydon & Ryan, in which may be found one of the largest and best assortments of general merchandise in the country. Still keeping the river in view and proceeding in a northerly direction we arrive at York, a pretty little village nestled in the valley of the river, surrounded by vast acres worthy of a Master's Crown. It possesses splendid water-power and boasts of several well equipped and prosperous manufacturing concerns, among which may be mentioned the prominent firm of Connolly & Benjamin, a leading firm of which is the manufacture of kals, spoked wheels, etc. Here we take leave of the river and strike for the rugged north, where the hills are lasting grey and green the heavy beaded granite and the majestic pine. Leaving Colbrook and Moore's Mills to the east we have then an uninterrupted run of some nine miles passing in the valley of the river, a beautiful sheet of water slumbering in the bosom of a fine tract of agricultural country, and whose general character and verdant shores combine to lend a charm to the scene. Skimming the drowned lands on nearly a dead level of two miles, and leaving the outlet of Mud lake we enter the village of Enterprise, a very extensive and dignified little place with very good hotels and stores. Proceeding on through curves and over grades for a distance of nearly six miles our destination is reached, viz., the village of Tawnorth. We are rather tired now and hungry, so leaving those intended to do this place at their leisure we proceed to discuss matters with mine host of the Wheeler hotel. The rains are now laid beyond Newburgh and it is expected that—weather permitting—a mile a day will be the average. The rising to the gravel pit is being constructed, and ballasting will begin as soon as it can be got at. The disinterested composed of men of acknowledged financial ability and business enterprise, with Mr. M. J. Butler, C. E., enjoying the confidence of both the company and his associates, will leave nothing undone to place the road among the best in the country. Yours faithfully, J. T. ASKLEY.

NAPANEE, Nov. 15, 1883.

CONGRATULATORY.

To the Editor of The Tribune.

DEAR SIR.—Through your columns I would congratulate the members and churches of Deseronto upon the recent successful Latter-connection service. The monster meeting in the evening of Sunday comprising five hundred of an audience, hearty singing and most discourses of Rev. Mr. Malloy, showed plainly that Jesus of the principle and religion, and for which Luther taught, are neither new nor old in Deseronto. I would like to wish through you the singers who joined in one large choir, sacrificing time and strength for practice, and by their good will giving most essential aid to the celebration. I have only one thing to regret, and that is that one congregation whom we desired most to see with us, and expected, did not take part. When another similar coming in the principles of the Reformation join from the many congregations which

will then exist in the metropolis of Deseronto by that time a city of five hundred thousand inhabitants in a millional jubilee. Yours Sincerely,

R. J. Craig,
Pastor of church of Redeemer,
The Manor, Deseronto, Nov. 14, 1883.

NAPANEE & TAWNORTH RAILWAY.

Sidings are being prepared at Napanee Mills, Newburgh, and Clark's Mills. Work on the new station building at Newburgh, will also be soon commenced. Mr. Geo. Cliff, has nearly completed on the outskirts of Napanee, a large building for the Napanee, Tawnorth & Quebec Railway, capable of containing two locomotives. The favorable weather of the past few days has enabled contractor Rowe to make good progress with his work. We understand the track is now laid to Clark's Mills, and by Saturday night it is expected to reach York.

The bridge over the Napanee river and roadway into the gravel pit on Granger's farm, are now nearly completed. This part of the work involves a very heavy expenditure, but the excellent quality of the gravel will ensure a first-class road-bed.

I can't rest. Have a pain in my stomach after my meals. My dear sir, use Crawford Bitters.

BIRTHS.

At Deseronto, on the 15th inst., the wife of Mr. John Beasley, of a son.

At Deseronto, on the 20th inst., the wife of Mr. John C. McLeod, of a son.

MARRIAGES.

At Belleville, on the 19th inst., by the Rev. Mr. Farrelly assisted by Rev. Father Donoghue, Mr. Patrick J. Shannon to Miss Eliza J. Kenny, both of Belleville.

On the 19th inst., at the residence of the bride's father, the marriage of Miss Eliza Jane Province, eldest daughter of Mr. Alex. Province, to Mr. Benjamin A. Stewart, also of Richmond.

The Tribune.

THURSDAY, NOVEMBER 22, 1883.

TOWN AND COUNTY.

L. O. O. F.

Go and see Egar's Xmas Cards.

What about lock-boxes for the post-office?—

Underclothing at the Big Store from 70c up.

A big stock of Men's Undershirts and Drawers at McAlister's, very cheap.

The Deseronto Snow Shoe Club is preparing to organize for the coming winter.

Dr. CLINTON reports Mr. Baptiste Johndrow who was injured by the recent runaway to be progressing favorably.

"TANGENT" favors us with an interesting and well written letter, to which we direct the attention of the readers of THE TRIBUNE who will all be pleased to hear from him again.

STANDARD TIME.—Deseronto as well as its neighbors has adopted the Standard time, and trains, steamers, factories, etc., are running according to it. It makes a difference here of about 10 minutes from true time.

SOCIAL PARTIES.—Pleasant social parties were held at the residences of Messrs. Luke Murphy and James Burns, on Friday and Monday evenings respectively, at which all present enjoyed themselves most thoroughly.

COASTING.—The children, both young and old, had a grand time last Friday and Saturday coasting down hill, especially on Centre street, which appears to be appreciated by common consent to that pleasurable and healthy pastime.

CHRISTMAS.—The committees of the M. E. Sabbath School met on Monday night and decided to have a Christmas ship in the church on the evening of Monday, 24th December. There will be dialogues, recitations, music, addresses, etc.

THE INDUSTRY.—The large Lumber Industry returned from Trenton last week, having been employed there the greater part of the season in making timber cribs. The new apparatus worked most satisfactorily and proved a great saving in expense.

ANNUARY SERMON.—The members of Deseronto Lodge, I. O. O. F., assembled at their hall on Sunday morning and marched in procession to the M. E. church where Rev. J. O'Malley preached an eloquent and appropriate sermon on the fundamental principles of the order.—Friendship, Love and Truth.

FROST GATES.—The frost gate, as of any young people are aware, is a powerful factor in the promotion of loving and friendly intercourse. There are a few, however, along some of our avenues, whose springs from being too constantly overweighed have lost their power, and they are generally found in consequence swung open across the board-walk. The calm serenity of mind of the average pedestrian is greatly disturbed by a collision with these on a dark night and proprietors will please oblige by immediate attention.

THE WEATHER.—There have been several changes in the weather during the past week. On Thursday evening there was quite a blinding snow storm, four inches of snow falling in a few hours. This with the previous fall, made excellent sleighing and Friday and Saturday being clear and cold everything appeared to indicate that the winter of our discontent was here to abide. The mild weather of Sunday and Monday saw made a change, taking away nearly all the snow, Tuesday was a fine day with a few showers to rain in the evening. Yesterday showery with thunder and lightning.

Christmas and New Year cards very cheap at Egar's.

Trunks, Bags, Valises and Satchels, cheap at the Big Store.

For Ladies and Misses trimmed and unfurnished Hats go to McAlister a fresh lot extra cheap.

THERE will be a rush to-morrow evening to witness the entertainment at Christ Church (Lower Mohawk).

MR. G. H. M. BAKER, of Lakefield, has kindly forwarded us a long list of subscribers from that prosperous western town's work.

MAINE RAILWAY.—The Prince Edward is still on the marine railway, and the steam dredge Musson has arrived to be hauled up for repairs for next season's work.

A gas stove has been introduced into one of the rooms at the Central Offices of the Rathbun Company. A great improvement on the coal-stove with ashes, dust, etc.

DEARABLE.—The boulevard on the South side of Main street is to be extended to the foot of George street, thus adding to the attractive appearance of our principal thoroughfare.

UNSAFE.—Would it not be well to have the covers of the two new fire tanks well secured, otherwise we expect to record the obituary of some of the small boys playing in their vicinity.

STEAMER MILL.—Mr. John Hoppes has been up at Belleville for a few days putting up a shingle mill for Messrs. Flint & Holton of that city. The mill was manufactured in Deseronto by the Rathbun Company.

ALARM WHISTLE.—A new alarm whistle has been attached to the Refuse Boilers thus allaying another cause of the jealousy which existed among residents of the east end towards their fellow townsmen of the west side.

THERE are still a few families in Deseronto who have subscribed for THE TRIBUNE. Subscribe at once and thus let your neighbors read their papers in peace. There is nothing, not even sewing societies, which causes more ill-feeling between neighbors than from borrowing the local newspaper.

TOWN COUNCIL.—Minutes of town council come to hand and will be published in next issue. Among other matters notice of petition from C. Goodenough and others praying that the license on billiard tables be reduced. This will be taken into consideration at an adjourned meeting to be held on Dec. 3rd.

ST. THOMAS'S.—Every line of Dry Goods and Clothing in McAlister's Branch Store are equally cheap. He does not bait the public by advertising two or three well known priced staples at low rates, and make up the difference on the goods you may purchase. By all means go to the old reliable cheap store of J. McAlister's and secure goods very cheap, and thereby save money.

CONGREGATIONAL MEETING.—A social entertainment will be held in the M. E. Church on Wednesday evening, 28th inst., at 7:30 o'clock. The programme will embrace music, both vocal and instrumental, readings, and addresses by Revs. H. M. McQuade, Craig Ash, and other gentlemen. Admission free and collection during the evening. Please observe that it is on the 28th and not the 27th inst., as announced in the congregational circular.

TAYLOR'S REPORT.—A copy of Prof. Taylor's Report on Emigration to Canada, read by him at the South Kensington Institute of Agriculture, have come to hand. We observe that he refers in glowing terms to the care and attention bestowed on emigrants in the trip across the Atlantic, his statements on this subject sounding strange in view of the recent revelations before the courts at Montreal. He, moreover, praises highly the civility and courtesy of the immigration officials, all of which will be taken with the usual allowance of salt.

LOSS OF THE FLORENCE HOWARD.—Intelligence arrived on Tuesday that the schooner E. Howard sank off Wellington on Monday night. She had taken in part of her cargo at Wellington and was on her way to West Point to complete it. The crew were landed safely. The vessel was well known in this section as at one time owned by the late Mr. David Andrews, and for years had in Pictou harbor submerged to the docks. She was purchased by the Rathbun Company, mended and rebuilt, and continued in their service for about two years, when she was sold to Capt. O'Hagan who was owner at the time of her misfortune.

Story Books, Pure Books, and everything for Christmas trees at Egar's. Banns, complete, with instruction book, for sale cheap. Address P. O. Box 107.

RAILWAY TRAFFIC.—For the week ending 17th inst., 25 car-loads of freight passed over the line of the B. of Q. Railway.

Buy your goods at the Big Store where you can get everything you want at as low a price as any respectable dealer can sell them.

The Locomotive for the Thousand Island route was dispatched to Gananoque on Tuesday, traffic on that branch commencing next week.

POLICE BUREAU.—On Monday Chief Canyon reported Richard Maricle to Belleville, where he will spend five months with vigorous Appleby, the charge being vagrancy.

HOME AGAIN.—Mr. Martin Maloney, who has been rusticated at Oswego for a short time, has returned home none the worse we are glad to say of his trip to the other side.

WINTER SPORTS.—We are glad to learn that Mr. A. Goodenough, opening early in the season a first class skating rink in the vicinity of the Flour Mill. There will be a comfortable warming room attached, and patrons can either purchase or rent skates of the latest styles at reasonable rates.

SHILL RUNNING.—The saw mills of the Rathbun Co. are all still running and it is to be hoped that mild and favorable weather may continue so as to permit them cutting away into December. A few weeks more of work would be a boon to the community, and tend to materially shorten the winter for workmen.

TIME TABLE.—The trains of the Bay of Quinte Railway connecting with the Grand Trunk now leave as follows:—Going West, Express, 4:30 a.m., and 4:30 p.m., and Mixed, 8:15 a.m. and 8:45 p.m. Going East, Express, 11:30 a.m., 12:10 midnight, Mixed, 8:15 a.m., and 10:15 p.m. It will be observed that there is a new local train going west at 8:45 p.m.

FRIDAY NIGHT.—Don't forget the entertainment at Christ church (Lower Mohawk) to-morrow night, 23rd inst., at 7 o'clock. Promises to be more than ordinary merit. Prof. Green's recitations in the sign language have given wonderful satisfaction elsewhere, and Deseronto people should not let this opportunity escape without seeing for themselves. The admission fee is only 15 cents.

ST. MARK'S LITURGICAL SOCIETY.—The first Social of this Society was held last Friday evening at the residence of Mr. John McQuade. There was an attendance of over forty. The larger number of whom have connected themselves with the Society. After reading the minutes of the former meeting business was transacted, chiefly in reference to more complete organization. This finished, a short programme of amusement followed, including vocal solos by Messrs. Barnhart and Grant, and Mr. H. Aylsworth, readings by Messrs. F. C. Whitton and A. E. Riven, and some selections on the piano by Miss Fie. During the evening refreshments were very kindly and thoughtfully served to the company by the host and hostess. The next meeting will be held at the residence of Mr. John Hoppes on Friday evening, 30th inst., open to the public, admission 10 cents.

ODDfellows' ANNUARY.—Deseronto Lodge, No. 102, I. O. O. F., celebrated its eleventh anniversary by a convention held in the lodge room on the evening of the 15th inst. There was a goodly assemblage of the brethren with their wives and cousins, and the cozy lodge-room presented a cheerful appearance, the members wearing their regalia and various insignia of the order. The war of the elements which raged vicariously only served to bring into brighter contrast the cordiality and pleasure which reigned within. After singing the opening ode and engaging in prayer, the Rev. J. O'Malley, the chairman of the evening proceeded to deliver an admirably conceived address. He dealt with the history of the order from the 15th Nov., 1872, in what was known as the Indian story, and that two only of the charter members, viz. Bro. Newton and McGlashan still survived. Since its institution 150 had been initiated, and there were now over 80 members in good standing in the lodge. There were lodges in 1872, when they regarded as the offspring, viz. Pictou and Napawa, and they should therefore be justly proud of their success. He then reviewed the difference between their humble be-

ginning and their present prosperous circumstances. There had been four deaths during the past year, and a large amount had been paid in benefits to sick members and relatives of deceased brothers. It was acknowledged on all sides to be the banner lodge of these counties, and he considered it an honor to belong to the order and especially to such a lodge. He was glad to see so many of the wives and sweethearts of the brethren present; there was no cause why they should ever be ashamed of the order or of its members, as there was nothing degrading in such an institution, remembering as they might that its motto was Friendship Love and Truth. Their principles were founded on Scripture, their duties being to soothe sorrow, benefit others, and raise them in the scale of being. The order was now counted by millions, and being non-political and non-sectarian it could effect much which when the church could not accomplish. After this interesting address a well selected programme of amusement was entered upon and successfully carried out. There appears to be an unlimited amount of musical and literary talent among the members of Deseronto Lodge, so there was no lack of material on which to draw to render the evening truly enjoyable to their guests.

The trained choir consisted of Miss Grant, Miss Barnhart, Mrs. Coleman, and Bros. Egar and Wright rendered several choruses with much spirit and success. Mr. E. Arthur Riven skillfully playing the accompaniments. Vocal solos were given with good effect by Bros. Geo. W. Wright, John Hoppes, W. G. Egar and G. Hancock, Mr. G. Eassey accompanying on the organ. The effort of Barnum's Comedian Troupe effectively led by Bros. Farman and D. R. McRae was well received and evoked much merriment. The chairman gave as a reading "Why should the spirit of mortal be proud?" and Bro. C. E. Hubbs also read two couplets on the same matter, which elicited general applause. But as was well remarked by Bro. Cameron, the "genius of the evening" was undoubtedly Bro. H. R. Bedford, the accomplished secretary of the lodge, who fully sustained his reputation as an eloquentist of no ordinary ability. He read three selections, that of "Pray employ Major Nunsley," being rendered inimitable style, while it is doubtful if those present are yet recovered from the side-shaking caused by "The Infatuation Ceremony," a pleasing episode of the evening, which was observed to be keenly appreciated, was the adjournment to the Town Hall below the Lodge Room, where all sat down, supper prepared and arranged in a manner which reflected great credit on Mr. T. G. Groat, the caterer for the occasion. After more than ample justice had been done to this elegant repast the company returned to the lodge-room and the programme being completed, Bro. Win. Peterson gave a brief closing address. He stated that he was the only one there of the thirteen who had been present at the institution of this Lodge. He urged brethren to be regular in attendance and asked the ladies to see that husbands or brothers did not forget lodge night. He also strongly advocated the establishment of a Rebecca Lodge, as he was not of those who believed a woman could not keep a secret. Bro. James Cameron being called to the chair votes of thanks were tendered to the chairman, to the corporation for the use of the Town Hall, and to the ladies for their assistance. The closing ode was then sung and this enjoyable evening brought to a close. The Committee, who were unwearied in their efforts to make the affair a success, was composed of Messrs. W. Peterson, H. R. Bedford and Robert N. Irvine. The organ used on the occasion was from the establishment of Mr. John Dalton. After the adjournment a number of the young people betook themselves to the Town Hall where they enjoyed a Hop. Roger's string band furnishing the music. The dinner returns thanks for courtesies extended. Its representative thoroughly enjoyed himself, and were it not for the risk of being labelled out, and the terrors of the "hunger" degree he would be inclined to enrol himself among the ranks of such a popular order.

Nerviline, What is it?

Pelen's Nerviline is a combination of the most potent pain relieving and known medicinal agents. The constant progress made in this department of science points to the fact that Nerviline is the latest development in this movement, and embodies the latest discoveries. For fevers, colds, pain in the head—external, internal, and local—Nerviline has no equal. Expend little for the purchase of a sample bottle of Nerviline and be convinced of its marvellous power over pain. Sold by Egar's, Large bottles 25 cents, at all druggists.

- and Plush Brocades.

These goods are now open for inspection and will be found worthy of examination.

It will be advantageous to our customers to select and leave their orders for these goods early and avoid the rush later on.

DOWNEY & CO.,

Happanag.

The Tribune.

THURSDAY, NOVEMBER 29, 1883.

The Messrs. Gilmore & Co. have, we are glad to state, resumed their lumbering operations in the back country thus assuring an increased demand for labor and an enlarged market for the products of the soil in the more remote townships.

AS THE TRIBUNE led its readers to anticipate the election in Lenox was closely and steadily contested by both parties. It has resulted in the return of Mr. D. W. Allison the Reform candidate by a majority of five votes. The official figures of the Returning officer or the recount of votes which will not be demanded may possibly change this narrow majority.

SOME of the leading manufacturers of Massachusetts of both political parties are uniting in order to secure the repeal of the duty on coal imported from Nova Scotia. The wonderful progress and extension of manufacturing interests in the Southern States have had a tendency to depress the cotton and other industries of New England. In order to meet their new competitors on more equal terms they proposed to ask Congress to repeal the coal duties and thus lessen the expense of manufacturing. In addition to this, Boston capitalists have invested largely of late years in the iron, copper, and coal mines of Cape Breton and are thus directly interested in a remission of the present taxes. Although great opposition may be expected from the coal ring of Pennsylvania, we trust that the new movement may be successful, as it would vastly increase the output of the Nova Scotia coal mines and lead, as the Minister of Finance stated in Napanea last Saturday, to the removal of the duty on coal entering into Ontario from the United States.

THE Hon. Adam Crooks, who has been compelled on account of ill health to resign his position as Minister of Education. While all will regret the cause which has led to his resignation, it must be admitted that the affairs of the department have during the past year fallen into a deplorable condition. This was owing to the physical inability of the Minister to attend to his official duties, and not from any lack of mental capacity, no member of the local legislature being confessedly better qualified to administer the Education Department. The government are to be congratulated on their choice of a successor, the position having been offered to and accepted by Mr. George W. Ross, late member for West Middlesex in the House of Commons, who will seek election at the hands of that constituency for the Local Legislature. The new Minister should be well qualified for his position, having been himself formerly a teacher, Public School Inspector, and Inspector of Model Schools, and President of the Ontario Teachers' Association. He has thus a practical acquaintance with the educational system of the province, and this joined with his parliamentary experience in the House of Commons will lead the country to expect much from him in the most important department of the Local Administration.

THE startling intelligence, that El Mahdi had succeeded in annihilating the Egyptian forces under the command of Hicks Pasha and a corps of European officers, produced a great sensation last week. It would seem that the whole Sudan will soon be overrun by the horde who flock around the standards of the False Prophet, and that even Cairo itself may be threatened. The new turn which affairs have taken has prevented the proposed withdrawal of all British troops from Egypt and may eventually necessitate the dispatch of a force to the Upper Nile. The Egyptian authorities have in ten years spent much blood and treasure to give the Sudan a settled government, but matters now appear to be in a worse position than ever. It might not be amiss for the British Government to come to terms with El Mahdi and acknowledge him as ruler of the Sudan. He has evidently gained an ascendancy over the mixed population of that part of Egypt, and an exercise of skillful diplomacy might succeed in converting him from an active enemy into a fast ally. Present calamity will in the end be productive of much good as it will probably ensure the construction of railways from different points on the Red Sea or up the valley of the Nile for military purposes. Peace and direct commerce obtained there will then be found useful for the extension of British commerce.

AMUSEMENTS

In the description of Deseronto recently given by a *Globe* correspondent mention is made of a complaint preferred by many of the young men whom he met in the hotel. The complaint is the old one which we have heard so frequently advanced in the past, viz, that there is a complete lack of amusement in the village; that there is no skating rink, no reading room, no entertainments, such as are found in towns elsewhere. As amusements are necessary for the welfare of a community, it may not be amiss for the TRIBUNE to offer a few statements on the question which, now that the subject is thus brought before the public, may be found not altogether unacceptable. The charge is one not by any means confined to Deseronto, as the same thing is heard very frequently in nearly all our Canadian towns and villages. In fact, it is often asserted that even Canadian cities are insufferably dull on this very account. They have their theatres and opera houses, it is true, where third rate companies from New York or Boston perform before limited audiences, with now and then visit from a *prima donna* or eminent actor. One or two have lecture courses, some of them have reading rooms and some of them a public library worthy of the name, a reproach which Toronto is endeavoring, successfully we hope, to remove. It will be seen, therefore, that the cities and larger towns have not much to boast of in the amusements they offer to the public. Persons coming from the British Isles frequently complain of this, and consider as one of their greatest sacrifices the enforced abandonment of their former amusements, free libraries and comfortable reading rooms. We refer to these facts not to boast of the shortcomings of Deseronto in this respect, but to show as fairly as possible the state of things which prevails elsewhere. It will be found that nearly all our towns depend for their amusement on the different churches and societies who offer entertainments, and so much we fancy to divert the public, as for the purpose of adding to the funds of their depleted treasuries. It is well, indeed, that they are compelled to resort to this method or the cry of those who now complain would be much more loud and frequent than at present. There are young men who are even so unreasonable as to maintain that the Church Societies and the Society's entertainments are, as sources of amusement, stupidly insipid and slow. This arises, it is presumed, from a painful consciousness that it may be possible after all that it is their contribution and not their company which is so eagerly solicited. Some say that one of the causes of the absence of any united effort to remove the cause of the complaint under discussion, is due to the frequent necessity of these very entertainments. They maintain that the energies of those best qualified to effect a desirable change are thus frittered away, that they become unable to look beyond the range of their own religious communion, or the interests of their own church or favorite society, to forward any movement in the general reform. This view may possibly be correct, though we are inclined to think that such a tendency for any lengthened period in the progressive atmosphere of Deseronto. In what way then are the complaints of those who cry out for more social amusement to be answered? The winter with its long monotonous evenings is coming on; to what can be done at this stage to provide healthy and instructive pleasures for the young people? We submit that it will be the duty of the grumblers themselves to aid largely in the solution of the problem. There is the unlimited field of out-door amusements which a Canadian winter fortunately affords to all. The sleighride, coasting, tobogganing, snowshoeing and similar exhilarating pastimes may be indulged in by all. Visitors to Montreal and other parts of Quebec inform us of the extent to which they are there carried and of the unlimited amount of health and pleasure they afford. Skating and curling are also amusements especially desirable; but then, it is objected, there are no rinks. Skating rinks are now found in nearly all towns being erected and managed by stock companies and generally found to be of great benefit to the community. It is probably that one in this village would pay, but in the meantime let the best use be made of the more humble open rink which private enterprise offers. Leaving these bodily exercises alone for the present, and profitably, let us turn to consider what might be accomplished in another direction. Could not a citizens' committee get up a good course of lectures for the winter? There are pastors of

congregations, lawyers, doctors, skilled mechanics, etc., who require only to be approached to secure something in this way, and as a matter of right they might draw on professors of colleges in neighboring cities for the same purpose. The same committee could also arrange for recitals and a concert or two, which might bring out the combined talent of the village. These things are done with advantage elsewhere, and action on the part of a few of our more public spirited citizens here, would soon furnish the community with the prospect of a series of pleasant and profitable amusements for the winter. In our judgment public libraries and reading rooms are matters of municipal importance, whose neglect by the establishment and maintenance should be undertaken by town councils, and we therefore leave the consideration of these to some other occasion. It would be desirable that some immediate action should be taken in this matter to remove the just cause of complaint, which has resulted in our public discord.

PICOTON.

(From Our Own Correspondent.)
The barley is pretty well bought up, only a few stalks remaining unsold.

Had taken place frequently of jolting in the large transport of sleighs that were from the town last week.

Vessels are in good demand for grain freight at three pence a bushel. The time is short now to ship by vessel.

Our beautiful sleighing was of short duration, but it was taken advantage of by the large transport of sleighs that were from the town last week.

Horses in town are scarce at present. G. E. Fraser has not found a horse suitable to occupy yet. One is being vacated by W. A. Gilmore but it is not convenient to his business.

The bankrupt stock of Walter Ross was bought by Hall, of Peterborough, who is selling it off by private sale very lively, the lot being filled with purchasers nearly every day.

Rye is not selling so freely, farmers are looking for better prices. There are 15,000 bushels of rye now in store at Jackson's. Buckwheat is in good demand at 60 cents per bushel.

The Fish Jubilee Singers gave an entertainment here last week under the auspices of St. James Methodist church. The night was stormy and it was not a very great success financially.

George Fralich has opened out a first-class restaurant in the east store of the Martin block. He has secured a first-class French cook and can get you a meal or a dish of oysters on short notice.

The large *Blue Wings* unloaded largely in Oswego on the 18th inst., and came to Picton and loaded again at Jackson's elevator on the 19th, and left the same night for Oswego. Quick time.

John Soly is having the bar-room in the Royal Hotel frescoed to correspond with the sitting room and hall. When completed fully it will compare with the first-class houses of Toronto in appearance, and be an ornament to Picton.

T. G. Carson has sold his photo business on account of ill health, to a Mr. Ross, who was for a short time partner of H. Hadden, hardware merchant, which was lately dissolved. Thus, Ross, the operator, will continue to make everybody happy and pleased with themselves who give him their patronage.

Our town lost one of its fine residences last Thursday night. At 12 o'clock a fire broke out in the house occupied by G. E. Fraser was discovered to be on fire at the rear, and as was lately dissolved. Thus, Ross, the operator, will continue to make everybody happy and pleased with themselves who give him their patronage.

What 10 Cents Will Do.
A 10 cent bottle of Polson's Nervine will cure neuralgia or headache. A 10 cent bottle of Nervine will cure indigestion or flatulency. A 10 cent sample bottle of Nervine is sufficient to cure colds, diarrhoea, spasms, dysentery, etc. Nervine is just the thing when all pains, whether internal or external. Buy at Eggar's a 10 cent sample of Nervine. "Great pain cure." Safe, prompt, and always effective. Large bottles at any drug store, 25 cents.

MRS. MIX,
Has just arrived from Toronto, with a large stock of
FEATHERS, FLOWERS, BONNETS, HATS, ETC.,
Of the latest styles, which will be sold very cheap.
Don't fail to call before purchasing elsewhere.
Sign, *Blue Flag*, Main St. Deseronto.

CHEAPSIDE

DRY GOODS STORE !

DESERONTO.

OUR FIRST MONTH'S BUSINESS A SUCCESS.

The people appreciate Cheap Goods.

OUR OBJECT AND MOTTO

Will be to sell goods for CASH only, at prices much lower than other stores. This will be proved by doing what we advertise. We import all goods direct from the manufacturers, and with this advantage, and taking no chances whatever on bad debts, we can afford to sell at a very small margin of profit.

We have just opened out a tremendous stock of trimmed and untrimmed

MILLINERY.

Which, owing to the season being so far advanced, we will sell at half the usual prices. Ladies will do us a favor by inspecting these goods whether intending to purchase or not.

Remember the address:—Cheapside Dry Goods Store, next D. R. McRae's tin shop.

R. H. TRIMBLE.

ESTABLISHED 1873.

APOTHECARIES HALL.

Anahet Island	121
Majority for Allen	121

NAPANEE & TAMWORTH RAILWAY.

The locomotive horse in process of construction at Napanee, was shown down in the gate last Thursday. The work of rebuilding was immediately commenced.

Mr. George Cliff, contractor, will immediately commence work on the freight house and platform at Newburgh. The plan shows that they will be very handsome and complete, and such as will be found in every way satisfactory to the people of that pretty village.

TOWN COUNCIL.

DECEMBER, Nov. 19th, 1883.—Council met in the council room. Members all present. The Mayor in the chair. The minutes of last session were read and approved.

A communication received and read from the Rathbun Company, agents of the Western Assurance Company in reference to re-insurance of Town Hall.

A petition from Caleb Goudimph and others, praying that the license on billiard tables be reduced.

A petition from W. G. Egar and others, praying for a grant to assist in defraying the expenses of Dominion Day celebration of 1883.

Dr. Newton moved, seconded by Mr. Baker, That the Reeve attend to the renewal of insurance on Town Hall.—Carried.

Mr. Newton moved, seconded by Mr. Baker, That the poll tax of Messrs. Beasley, Bopart, Cole, Campbell, Glover, Palmer, Terrot, Hunt, and others, be remitted.—Carried.

Moved by Mr. Baker, seconded by Mr. Namith, That the poll tax of Messrs. Stafford, Bell, and Waterbury be remitted.—Carried.

Mr. Baker moved, seconded by Mr. Namith, That the cost of any in prosecution for poll tax when the defendant defaults the prosecutor be paid by the corporation.—Carried.

Moved by Mr. Baker, seconded by Mr. Irvine, That the consideration of the petition of Caleb Goudimph be laid over to a special meeting to be held two weeks from to-night.—Carried.

Mr. Baker moved, seconded by Mr. Namith, That on the petition of W. G. Egar and others, a grant of \$50 be made to Mr. E. A. Ryan, Treasurer of the Dominion Day celebration committee for the purpose therein named.—Carried.

The Reeve reported that he ordered a board-walk to be laid on the north side of Dundas street, from the west side of St. George street, to Mill street, and thence along the east side of Mill street to the north of the White Church. Report adopted.

The Reeve was instructed to get a guard placed on the bridge over John Collier's on the road leading to the ferry.

Resolved that the Council adjourn until Dec. 26, at 7:30 p. m.

R. N. LAYNE, Clerk.

OUR SCHOOLS.

To the Editor of The Tribune.

DEAR SIR.—In visiting our school lately, I was agreeably surprised to find in what an admirable condition it is. The thorough renovation of midsummer has changed it from an unsavory, dilapidated school into an attractive, clean, well kept one.

I wonder that some of our citizens do not visit it. Indeed, if report is true, some of our trustees have yet to pay it a first visit. I found the teachers and scholars hard at work, and should judge that good service is being rendered by the former, and profitably received by the latter. A year ago our inspector pronounced our school in a better state than ever he had seen it, and I have no doubt that he will have the same thing to say at the December examinations.

I should suggest to any of our tax payers, who are at all inclined to find fault with the present staff of teachers and results of their work, to visit the school, see the classes at work, examine the Roll Books, have a friendly chat with the teachers, repeat the wish, ask the scholars about their tasks, and thus be in a position to judge. Having visited the school frequently this year I find myself wondering that so much thorough work is performed, seeing that besides irregularity of attendance on the part of some of the scholars, the teachers have to contend against the inconvenience of over-crowded rooms. Two more rooms are immediately needed, and before another twelve-months passes they will likely be provided for by our energetic school-trustees, who in their several professions of civil-engineers, machinists, carpenters, preachers and so on, are busy at work preparing plans. Mr. Editor, have you been there?

REV.

The Victoria Gold Mining Co. suppose that they have struck a rich gold lead in their mine in North Hastings.

Deer appear to be very plentiful this season; every exchange we take up records the capture of one or more. It is evident they are doomed to extermination.

DISTRICT.

No inmates in the Prince Edward Co. gaol.

Gannaque is justly proved of its Silver Cornet Band.

A lodge of the Independent Order of Foresters, has been instituted at Stirling.

Both political parties are hard at work in Lennox. The result appears to be doubtful.

Rev. S. Houston was inducted into Dock St. Presbyterian Church, Kingston, on Tuesday.

Mr. W. Whitton of Campbellford has shipped three thousand sheep since last spring to New York.

A large number of newly appointed Justices of the Peace have been let loose in Leeds and Grenville.

Large quantities of barley have been shipped from all parts of the Bay district, during the past week.

Belleville as well as Regina has a Hawaiian Consul; is not this consular business being pushed a little too far?

The Gannaque Journal calls for crusade against the prevailing profanity of that place. Gannaque is not the only place afflicted with this abominable vice.

The Gannaque Reporter rejoices in the fact that Gannaque has at length attained direct railway communication with the outside world. It says that town by the St. Lawrence it already begins to look like a great railway centre.

PERENNIAL WEEDS.

The weeds which are usually regarded as most difficult to subdue, and which some persons think cannot be eradicated, are those with perennial roots which extend and spread by running beneath the surface, like the Canada thistle, toad-flax, and quack grass. The Canada thistle is regarded by many as a weed of the most formidable character which cannot be killed. The writer in one of our exchanges, thinks he has discovered how to destroy a Canada thistle patch in seven years, by never allowing them to go to seed. We have never asked for more than four months to destroy any patch, on any kind of soil which could be ploughed, and that a solitary plant will never make its appearance again.

The successive plowing of the land in admirable condition for sowing wheat in autumn or for other crops, the cost of drying the thistles being more than repaid by the increased crop which followed the thorough pulverization. In one case, an acre of ground, intended as a future garden, was overrun with these thistles, milksweeds, and with various other obnoxious intruders. They were thoroughly and deeply plowed under at the first blossoming, and the plowing was often enough repeated to prevent a solitary plant from peeping above the surface. The garden was thus perfectly freed from them. Whole fields have been cleared the same way. Some cultivators tell us that they have tried this mode and failed, but we have found on close inquiry, that a few weeds had allowed to spring up between the plowings, by which the entire labour was lost.

Worth Ten Dollars a Bottle.

Any person who has used Palsen's Nerve-line, the great pain cure, would not be without it if it cost ten dollars a bottle. A good thing is worth its weight in gold, and Nerve-line is the best remedy in the world for all kinds of pain. It cures neuralgia in five minutes; lame back at one application; headache in a few moments; and all pains rapidly. Small seal bottles only cost 10 cents. Why wait if it today? Large bottles 25 cents, sold by Egar. The Palsen's nerve pain cure—Nerve-line.

BIRTHS.

At Deseronto, on the 24th inst., the wife of Mr. Murray Deane, of a son.

MARRIAGES.

At Tyndinaga, by the Rev. J. C. Ash, at the residence of Mr. Thomas Blamhart, on the 22nd inst., Mr. Isaac Powles, to Miss Lydia Pean.

At Deseronto, on the 21st inst., at the Parsonage, by Rev. J. O. Mallory, Mr. David Spooner, of Deseronto, to Miss Annie Trenbly, of Campbellford.

On the 23th inst., by Rev. J. O. Mallory, at the residence of Mr. James Montgomery, 2nd Co. of Tyndinaga, Mr. Albert Montgomery to Miss Lydia Montgomery, all of Tyndinaga.

Orders by mail will receive prompt and careful attention.

NEW ADVERTISEMENTS.

3 LOCALS.—Big Store.
3 LOCALS.—J. F. McAllister.
MILKENY.—Mrs. M. K.
DICKSON.—Miss Williams.

The Tribune.

THURSDAY, NOVEMBER 29, 1883.

TOWN AND COUNTY.

MILLS not yet shut down.

If your girl doesn't skate let her slide.

A newspaper drop is required at the Post-office.

The rush of customers continuing to McAllister's cheap store.

If you want a dish of oysters got in good style go to Goldie's.

Gentlemen's Opera Tie Shippers, something new, at the Big Store.

All who advertise do not become rich, but precious few become rich without it.

Mr. Kelley has just received a barrel of splendid chard which he is selling very cheap.

A special service for children will be held next Sabbath in the Church of the Redeemer at 10:30 a.m.

As we are striking off this number of the TRIBUNE a very pleasant social congregational meeting is in progress at the M. E. Church.

GAS MAINS.—The gas-mains have been laid along Dundas street from Centre to George street, and the trenches dug along the latter street to the Church of the Redeemer.

ST. MARK'S CHURCH.—A delegation consisting of Rev. Messrs. Spencer and R. J. Harvey will deliver addresses in the interest of the Mission Fund of the diocese of Ontario, in St. Mark's Church, next Lord's Day, at 7 o'clock in the evening.

WORK has been resumed on the White Church and it is expected that it will soon be ready to be occupied by the Sunday School etc. Mr. Curwell the sexton has moved into the new residence erected for him to the rear of the church.

NEATNESS.—Travellers are wont to admire the tidy and attractive appearance of the station and the surroundings at Deseronto Junction. Mr. Brown, the agent there is deserving of much credit for his efforts in this direction.

YACHTING.—Subscribers for the TRIBUNE and don't depend for the information necessary to keep you posted on the affairs of the day, on the previous chance of planning at a copy while awaiting your turn for a clean shave at the tonsorial parlor.

NAVIGATION.—The *Alexandra* has made her last trip for the season, and the *Hero* comes no farther than Britain. The *Arctonia* is still on the line of the Ogishkemuncie route, and the *Resolute* and *Reliance* are busier than ever carrying lumber to Oswego.

LAST TRIP.—The *Clara White* arrived on her last trip for the season with a cargo of coal, and this discharge she will go into winter quarters at this port. Captain Woodcock has had a successful season and will now enjoy the comparative leisure of life ashore.

STATION HOUSES.—The TRIBUNE announced in a former issue that the Rathbun Company had secured the contract for erecting seven station-houses, freight sheds, etc., on the line of the Ontario & Quebec. Mechanics and others will be glad to know that this number has been increased to ten. On all sides may be seen large quantities of material in various stages of preparation for their erection.

MUNICIPAL.—December comes in on Saturday, and from that time the face of the candidate for municipal honors begins to assume a smiling and cheerful aspect, while he manifests unbounded interest in the health and welfare of the ratepayers. We have a heavy fall of rain, in any new men not yet heard naming of any new men who intend sacrificing themselves for the public good, nor the lines upon which the coming contest, if any, will be run.

For genuine all wool white Blankets from \$2.25 a pair, go to McAllister's Branch Store.

REMEMBER the social meeting of St. Mark's Literary Society, at the residence of Mr. John Hoppes next Friday evening, admission 10 cents.

READY.—The destructive fires at Niagara and Port Perry should teach our community a lesson to have well equipped apparatus and trained brigades.

Farmers should bring their large cans and get them filled with American Coal Oil at the Big Store, the only place where you can get good oil at 25 cents per gallon.

OUR thanks are due to correspondents at Shannonville, Pictou, Kingston etc., for their interesting favors by which they place the TRIBUNE and its readers under heavy obligations.

SOCIAL.—A Parlor Social under the auspices of the Ladies' Missionary Association of the Church of the Redeemer will be held at the residence of Mr. J. W. Dexter, on Wednesday evening the 30th Dec., at 8 o'clock.

STREET CROSSINGS.—Some of the street crossings are in anything but a good condition, and a few more are required at different points. It is doubtful if even the most close-fisted ratepayer in the community would object to a little expenditure by the Town Council in this direction.

FERRY.—Would it not be a good idea for the Town Council to interfere with the service of the *Prince Edward*, and discover the terms on which he might be induced to run his boat as a ferry next season, from Deseronto to the opposite shore? The sooner this ferrage question is faced and solved, the better for the village.

DESIRABLE.—Would it not be well for the proprietors of our hotels or some enterprising resident to put on a passenger bus to meet trains. Strangers like the *Globe* representative for example, have much difficulty and discomfort in reaching their destination on dark nights and in disagreeable weather. The present order of things is not creditable to an ambitious town like Deseronto.

CHIPS.—Business will soon commence to get brisk about the Marine Railway now that navigation is about closing. The *Harbor* has been up getting a new wheel. The *Pilgrim* is hauled out for the winter, the yacht *Foot* has had a storm time ago has been nicely roofed over, several dredge scows have been drawn up for repairs. The steam dredge *Muskrat* was also hauled up yesterday for extensive repairs during the winter.

MISSIONARY MEETINGS.—The Annual Missionary Meeting in aid of the mission work of the Diocese of Ontario will take place on Tuesday next, Dec. 2nd, in the Mohawk churches—in the morning at 10 o'clock, and in the afternoon at All Saints at 3 o'clock. Special Deputation appointed by the Bishop, the Rev. E. J. Harvey, of Stafford, County Renfrew. Mr. Harvey is spoken of as an able and earnest speaker. The Rural Doan preached in both churches last Sunday on missions, and requested his people to make their offerings on Sunday next in silver.

POLITICAL.—Much interest was manifested here in the Lennox election. A number of prominent citizens attended the meeting at Woodcock's school-house, and a delegation went down to Napanee on Saturday, where two large meetings were held in the interests of the rival parties. The meeting in the Opera house was in the Conservative interest and able addresses were delivered by Sir Leonard Tilley, Hon. J. H. Pope and lesser lights. The Reformers met in the Agricultural hall where Mr. W. Patterson, M. P. and Sir Richard Cartwright spoke forcibly in the opposition interest.

WEATHER REVIEW.—The storm which set in on Wednesday of last week gradually increased until it reached its greatest force on Thursday morning, subsiding to a calm however in the afternoon. Friday and Saturday were dull and overcast, Sunday clear and bright with exceptionally heavy hoar frost in the morning, an indication of coming changes in the atmosphere. A gale accordingly set in on Sunday night and continued with great violence until Monday evening, the wind blowing a gale, the velocity being for about ten hours at the rate of 32 miles an hour, and some of the gusts over 40. There was also a heavy fall of rain, in any new men not yet heard naming of any new men who intend sacrificing themselves for the public good, nor the lines upon which the coming contest, if any, will be run.

For New Hats, trimmed and untrimmed, Bonnet Shapes, Ostrich Tips and Plumes, Feathers and Ornaments, try McAllister's Cheap Store.

ANOTHER.—Mr. John Dalton, agent for the Dominion Organ & Piano Co., of Deseronto, last week sold a fine piano to Chief Sampson Green of the Reserve.

REPAIRED.—There are quite a number of bad holes again in the board walks, as well as dangerously loose boards in different places which appear to be inviting actions for damages against the corporation.

Go to the Big Store for all kinds of Sugars and Syrups. The large quantities which they sell enable them to buy direct from the refinery, thus saving the commission charged by wholesale houses.

BARLEY.—Barley is coming in at the rate of about 1,000 bushels a day, but prices are generally pretty low as elsewhere. Farmers will undoubtedly turn their attention largely to raising wheat and other crops.

THE new comet will be visible to the naked eye about the same time that the fire committee have perfected the organization of the fire brigade and put the new tanks into proper condition for the coming winter.

REMOVED.—Mr. Casimir Jacques, having purchased the house recently owned by Mr. Win. Rathbun has removed from its former site to another lot on the west side of Mill street near his own residence.

N. P.—If barley has been quiet it is gratifying to find the matrimonial market still firm and active. The pastor of the M. E. Church reports no third of the number of marriages celebrated by him since the meeting of conference in June.

DESCRIBTO DESCRIBE.—A *Globe* representative has been writing up the agricultural capabilities of the Bay of Quinte district. He was naturally attracted to Deseronto more particularly to satisfy his curiosity in reference to the chemical and gas works. Last Saturday's daily *Globe* contains his first impressions of Deseronto, and an interesting description of the works visited.

VERY VENERABLE.—Mr. Reuben Cronk has kindly placed on our table a great curiosity, viz., a copy of the *Boston Gazette and County Journal* of March 12, 1770. It contains an account of the troubles at that time between the militiamen and citizens of Boston, and resolutions of a public meeting of the latter calling for the removal of the soldiers. There are besides copies of resolutions passed in different towns pledging themselves not to import British goods until the duties are removed.

GOOD FRUIT.—THE TRIBUNE'S remarks on self-improvement are already bearing good fruit, several young men of the village having already commenced for the winter, home studies in different branches. A talented member of the stenographic staff has faxed us with a portion of a tale which he has translated during spare minutes from a French author in a manner highly creditable. This fact proves that even the busiest can yet find, if they will, an hour or two in the evening for the cultivation of their intellectual powers. Let there be a general move all along the line.

OVERY SUPPER.—In consequence of his intended removal to Gananoque, arrangements were made last week by the many friends of Mr. Peter Reid to tender him a complimentary supper at Mr. R. Geddis' oyster parlor as a mark of the high esteem in which he was held as a respected citizen. Intelligence arrived just about the appointed hour on Thursday evening, that Mr. Reid having missed the train could not be present. This was a great disappointment but the company wisely consoled themselves by proceeding with the supper; and a jolly evening was passed in the discussion of oysters and other delicacies served in Mr. Geddis' best style. Addresses, songs, etc., were delivered by the gentlemen present, the absent guest of the evening being frequently remembered in the course of the proceedings.

THE Trenton Courier lately advocates the speedy construction of the Trent Huron Canal, and at the same time condemns the construction of the Murray Canal by the Presquaire route.

MR. S. Wood of Brockville, paid \$65 for a cow last spring. From the 15th April to 14th November, her milk was sold at five cents per imperial quart, and realized the handsome sum of \$114.15. The cow was not forced, and for five months got nothing but grass.

NEW

FALL GOODS

—AT—

DOWNEY & CO'S.
